Medica Specialty Drug List

What are specialty drugs?

Specialty drugs are used to treat chronic or serious conditions such as rheumatoid arthritis, cancer, or multiple sclerosis. Some specialty drugs are capsules or tablets, while others are injected and can be given by the member or by a caregiver. These drugs typically require special approval processes, handling, administration, and monitoring.

How do I know if my specialty drug is covered?

1. Review this specialty drug list, which shows all of the medications Medica considers specialty drugs.
2. Your plan may not cover all of the drugs on this specialty drug list, so check your coverage documenton your member portal, or call the Member Services number on the back of your Medica ID card for your specific benefits.
3. Once you've verified your benefits, have your prescription filled through Accredo Specialty Pharmacy or your designated specialty pharmacy if it is a limited distribution drug.

Note: Coverage information is not displayed on this specialty drug list.

Where can I get my specialty drug?

Medica has partnered with Accredo Specialty Pharmacy to provide specialty pharmacy services to you. Accredo's clinical pharmacy programs are designed to help you take your medications safely and the way that they were prescribed. The Accredo clinical team can also give you educational materials on your condition as well as the specialty medication that you are taking. Additionally, they can ship your medications directly to you.

Accredo Specialty Pharmacy can dispense the majority of the most commonly used specialty drugs on the list below; however, certain drugs are designated as limited distribution by the manufacturer and must be obtained through a different specialty pharmacy. These drugs have a * next to them. Your provider typically knows where to send prescriptions for limited distribution drugs, but if you have any questions, reach out to Accredo Specialty Pharmacy and they can let you know which specialty pharmacies can dispense the drug you need.

How do I contact Accredo Specialty Pharmacy?

You can contact them by phone: Call (866) 544-6817 (toll free). TTY users dial 711.

Accredo Customer Service representatives will be available Monday-Friday 7 a.m.-10 p.m. CT, and Saturday 7 a.m.-4 p.m. CT.

*** = Limited Distribution Specialty Drug.** Refer to your coverage document to determine specific benefit levels and copay/coinsurance. Refer to your formulary for drug tier. Prior authorization or other utilization management programs may apply to drugs on this list. Generic drugs will bedispensed when available. Brand name drugs may be subject to the non-preferred benefit if the generic becomes available. Select drugs on this list may be excluded under member's specific plan design. Call the Medica Customer Service number listed on the back of your ID card for questions. This list is subject to change.
