Get the care you need — when and where you need it

- **Direct access** to more than 2,200 providers, 14 hospitals, and over 78 clinics in northeastern and western Minnesota, North Dakota, and northwestern Wisconsin.
- **Online care options.** Connect with your network provider online for medication refills, virtual care appointments, and urgent care visits.
- **Nurse advisors** at Essentia Health available to help members with health questions, 24/7/365.
- **A Travel Program Network** you can use when outside the service area (Minnesota, North Dakota, South Dakota, and western Wisconsin). The program's network is one of the largest in the country. And if you're a parent, even better: It covers your children when they're away at school. Emergency care services for students seeking care outside the ACO service area but within Medica's service area will be covered at the in-network benefit level. For other health care services, they will need to access care from an Essentia Choice Care network partner for in-network benefits to apply.

Built-in accountability to deliver better health + better care

Essentia Choice Care with Medica is an accountable care organization (ACO). What that means is simple: We partner with a group of doctors, hospitals, and other health care providers to give you high-quality care at a lower cost. When you receive services through your ACO, you can be confident that your team of providers will proactively help you get the care you need, at the right place, and at the right time.

Get the most value by staying in-network

Remember to see providers in the Essentia Choice Care with Medica network. If you get care outside the network, your costs will be much higher. You can find network providers here: [Medica.com/FindCare](https://www.medicacom/findcare) and select *Essentia Choice Care with Medica*.
