Get the care you need — when and where you need it

- **Direct access** to more than 4,400 physicians, specialists and advanced practice clinicians, 585 clinics in Nebraska and southwest Iowa, and nearly 40 hospitals.
- **Virtual Quick Care** available via phone or video chat 7 a.m. - 10 p.m. Visit with a provider, receive a consultation, and get a prescription for minor illnesses.
- **A Travel Program Network** you can use when outside of Nebraska and western Iowa. The program's network is one of the largest in the country. And if you're a parent, even better: It covers your children when they're away at school. Emergency care services for students seeking care outside the ACO service area but within Medica's service area will be covered at the in-network benefit level. For other health care services, they will need to access care from a Medica with CHI Health network provider for in-network benefits to apply.

Built-in accountability to deliver better health + better care

Medica with CHI Health is an accountable care organization (ACO). What that means is simple: We partner with a group of doctors, hospitals, and other health care providers to give you high-quality care at a lower cost. When you receive services through your ACO, you can be confident that your team of providers will proactively help you get the care you need, at the right place, and at the right time.

Get the most value by staying in-network

Remember to see providers in the Medica with CHI Health network. If you get care outside the network, your costs will be much higher. You can find network providers here: [Medica.com/CHIhealth](https://www.Medica.com/CHIhealth).
