Emergency, Urgently Needed Care, Renal Dialysis

Emergency care, urgently needed care, and out-of-service-area renal (kidney) dialysis are required under the Medicare program to be covered at in-network cost sharing levels for both in-network and out-of-network providers.

Emergency care: Emergency care can always be obtained in or out of the service area from the nearest available provider, including outside the United States and its territories through the worldwide emergency care supplemental benefit with applicable cost share.

Urgently needed care: We will cover urgently needed care that you receive from any Medicare participating provider when our network providers are temporarily unavailable or inaccessible.

Renal dialysis: When out of the service area, you can obtain dialysis treatment from any qualified dialysis provider at the in-network cost sharing level.
