It also has information about hospitals, nursing homes, physicians, home health agencies, and dialysis facilities. It includes booklets you can print directly from your computer. It has tools to help you compare Medicare Advantage Plans and Medicare drug plans in your area. You can also find Medicare contacts in your state by selecting "Phone Numbers and Websites."

If you don't have a computer, your local library or senior center may be able to help you visit this website using its computer. Section 2. Important information on getting the care you need

Each time you get health services, check to be sure that the provider is a Plan network provider. In most cases, you need to use Plan network providers to get your services. Members have access to a Provider Directory that lists Plan network providers. You may ask for a print copy of this at any time. To verify current information, you can call the provider, call Member Services at the phone number in Section 1, or visit our website listed in Section 1.

When you are a member or become a member of Medica you chose or were assigned to a primary care clinic (PCC). Your primary care clinic (PCC) can provide most of the health care services you need, and will help coordinate your care. This provider will also advise you if you need to see specialists. You may change your primary care clinic (PCC). Contact Medica Member Services at the phone number in Section 1 to change your PCC.

You do not need a referral to see a Plan network specialist. However, your primary care clinic can provide most of the health care services you need, and will help coordinate your care.

Contact your primary care clinic for information about the clinic's hours, prior authorizations, and to make an appointment. If you cannot go to your appointment, call your clinic right away.

You may change your primary care provider or clinic. To find out how to do this, call Member Services at the phone number in Section 1.

Transition of Care:

If you are a newly enrolled member who is currently receiving care from a provider who is not a Plan network provider, we will help you transition to a network provider.

If a drug you were taking previously is not covered under your new plan, you may be able to receive up to a 90-day temporary supply. For more information, call Member Services.

Prior Authorizations:

Our approval is needed for some services to be covered. This is called prior authorization. The approval must be obtained before you get the services or before we pay for them. Many of these services are noted in Section 7. For more information, call Member Services at the phone number in Section 1.

In most cases, you need to use Plan network providers to get your services. If you need a covered service that you cannot get from a Plan network provider, you must get a prior authorization from us to see an out-of-network provider. Exceptions to this rule are:

- Open access services: family planning, diagnosis of infertility, testing and treatment of sexually transmitted diseases (STDs), and testing for acquired immune deficiency syndrome (AIDS) or other human immunodeficiency virus (HIV) related conditions. You can go to any doctor, clinic, pharmacy, or family planning agency, even if it is not in our network, to get these services.

- Emergency and post-stabilization services

For more information, call Member Services at the phone number listed in Section 1.

The Plan allows direct access to the providers in our network, but keeps the right to manage your care under certain circumstances, such as: transplant services. We may do this by choosing the provider you use and/or the services you receive. When we manage your care, our nurse care manager and network providers will coordinate your care. For more information, call Member Services at the phone number in Section 1.

If we are unable to find you a qualified Plan network provider, we must give you a standing prior authorization for you to see a qualified specialist for any of the following conditions:

- A chronic (on-going) condition
- A life-threatening mental or physical illness
- A pregnancy that is beyond the first three months (first trimester)
- A degenerative disease or disability
- Any other condition or disease that is serious or complex enough to require treatment by a specialist

If you do not get a prior authorization from us when needed, the bill may not be paid. For more information, call Member Services at the phone number in Section 1.

If a provider you choose is no longer in our Plan network, you must choose another Plan network provider. You may be able to continue to use services from a provider who is no longer a part of our Plan network for up to 120 days for the following reasons:

- An acute condition
- A life-threatening mental or physical illness
- A pregnancy that is beyond the first three months (first trimester)
- A physical or mental disability defined as an inability to engage in one or more major life activities. This applies to a disability that has lasted or is expected to last at least one year, or is likely to result in death.
- A disabling or chronic condition that is in an acute phase

If your doctor certifies that you have an expected lifetime of 180 days or less, you may be able to continue to use services for the rest of your life from a provider who is no longer part of our network.

For more information, call Member Services at the phone number in Section 1.

At Medica, we have staff who can help you figure out the best way to use health care services. If you have questions about things like where to get services, getting authorization for services, or restrictions on prescription drugs, we can help. Call us at 1-888-347-3630 (toll free), TTY: 711. We are available to help Monday through Thursday 8 a.m. to 6 p.m. and Friday between 9 a.m. and 6 p.m. If you need language assistance to talk about these issues, Medica can give you information in your language through an interpreter. For sign language services, call 711. For other language assistance, call Medica Member Services at 1-888-347-3630 (toll free).

Covered and non-covered services:

Enrollment in the Plan does not guarantee that certain items are covered. Some prescription drugs or medical equipment may not be covered. This is true even if they were covered before.

Some services and supplies are not covered. All health services must be medically necessary for them to be covered services. Read this Member Handbook carefully. It lists many services and supplies that are not covered. See Sections 7 and 8.

Some services are not covered under the Plan, but may be covered through another source. See Section 9 for more information. If you are not sure whether a service is covered, call our Member Services at the phone number in Section 1.

We may cover additional or substitute services under some conditions.

Cost sharing:

You may be required to contribute an amount toward some medical services. This is called cost sharing. You are responsible to pay your cost sharing amount to your provider. See Section 6 for more information.

Payments to providers:

We cannot pay you back for most medical bills that you pay. State and federal laws prevent us from paying you directly. If you paid for a service that you think we should have covered, call Member Services. If you received a medical bill that should have been covered, call Member Services.

You may get health services or supplies not covered by the Plan if you agree to pay for them. Providers must have you sign a form acknowledging that you will be responsible for the bill. Providers must have a signed form before providing services or supplies that are not covered by the Plan.

Cultural Competency:

We understand that your beliefs, culture, and values play a role in your health. We want to help you maintain good health and good relationships with your doctor. We want to ensure you get care in a culturally competent way.

Interpreter Services:

We will provide interpreter services to help you access services. This includes spoken language interpreters and American Sign Language (ASL) interpreters. Face-to-face spoken language interpreter services are only covered if the interpreter is listed in the Minnesota Department of Health's Spoken Language Health Care Interpreter Roster. Please call Member Services at the phone number in Section 1 to find out which interpreters you can use.

Home and Community Based Services:

If you need certain services to help you live in the community, see Home and Community Based Services in Section 7 for information on Elderly Waiver services.

Other health insurance:

If you have other health or dental insurance, tell us **before** you get care. We will let you know if you should use the Plan network providers or the health care providers used by your other insurance. We will coordinate with your other insurance plan. If your other health or dental insurance changes, tell your county worker.

If you have Medicare, you need to get most of your prescription drugs through the Medicare Prescription Drug Program (Medicare Part D). You must be enrolled in a Medicare prescription drug plan to get these services. The Plan does not pay for prescriptions that are covered under the Medicare Prescription Drug Program.

Private information:

We, and the health care providers who take care of you, have the right to see information about your health care. When you enrolled in the Minnesota Health Care Program, you gave your consent for us to do this. We will keep this information private according to law.

Restricted Recipient Program:

The Restricted Recipient Program (RRP) is for members who have misused health services. This includes getting health services that members did not need, using them in a way that costs more than they should, or in a way that may be dangerous to a member's health. Medica will notify members if they are placed in the Restricted Recipient Program.

If you are in the Restricted Recipient Program, you must get health services from one designated primary care provider, one clinic, one hospital used by the primary care provider, and one pharmacy. Medica may designate other health services providers. You may also be assigned to a home health agency. You may not be allowed to use the personal care assistance choice or flexible use options, or consumer directed services.

You will be restricted to these designated health care providers for at least 24 months of eligibility for Minnesota Health Care Programs (MHCP). All referrals to

specialists must be from your primary care provider and received by the Medica Restricted Recipient Program. Restricted recipients may not pay out-of-pocket to see a non-designated provider who is the same provider type as one of their designated providers.

Placement in the program will stay with you if you change health plans. Placement in the program will also stay with you if you change to MHCP fee-for-service. You will not lose eligibility for MHCP because of placement in the program.

At the end of the 24 months, your use of health care services will be reviewed. If you still misused health services, you will be placed in the program for an additional 36 months of eligibility. You have the right to appeal placement in the Restricted Recipient Program. You must file an appeal within 60 days from the date on the notice from us. You must appeal within 30 days to prevent the restriction from being implemented during your appeal. A member may request a state appeal (Fair Hearing with the state) after receiving our decision that we have decided to enforce the restriction. See Section 13.

Cancellation:

Your coverage with us will be canceled if you are not eligible for Medical Assistance (Medicaid) or if you enroll in a different health plan.

If you are no longer eligible for Medical Assistance (Medicaid) and you do not have Medicare, you may be eligible to purchase health coverage through MNsure. For information about MNsure: call 1-855-3MNSURE or 1-855-366-7873 (toll free); TTY, use your preferred relay services; or visit www.MNsure.org.

Show your health plan member ID card and your Minnesota Health Care Program card every time you get health care. Also show the cards of any other health coverage you have, such as Medicare or private insurance.

Establish a relationship with a Plan network primary care doctor before you become ill. This helps you and your primary care doctor understand your total health condition.

Give information asked for by your primary care doctor and/or health plan so the right care or services can be provided to you. Share information about your health history.

Work with your primary care doctor to understand your total health condition. Develop mutually agreed-upon treatment goals when possible. Follow plans and instructions for care that you have agreed to with your doctor. If you have questions about your care, ask your doctor.

Know what to do when a health problem occurs, when and where to seek help, and how to prevent health problems.

Practice preventive health care. Have tests, exams and vaccinations recommended for you based on your age and gender.

Contact us if you have any questions, concerns, problems or suggestions. Call Member Services at the phone number in Section 1.

Section 6. Cost Sharing

Cost sharing refers to your responsibility to pay an amount towards your medical costs. For people in the Minnesota Senior Care Plus program, cost sharing consists only of copays.

If your income is at or below 100 percent of federal poverty guidelines, you will pay no more than five percent of your monthly family income for cost sharing. This may reduce the copay amount to less than the amounts listed here. DHS will tell us each month if you have a reduced cost sharing amount.

Copays

The members listed here **do not** have to pay copays for medical services that are covered by Medical Assistance (Medicaid) under the Plan:

- Members receiving hospice care
- Members residing in a nursing home, hospital, or other long-term care facility for more than 30 days

- American Indians who receive or have ever received a service(s) from an Indian Health Care Provider, or through Indian Health Service Contract Health Services (IHS CHS) referral from an IHS facility

Some services require copays. A copay is an amount that you will be responsible to pay to your provider.

Copays are listed in the following chart:

Service	Copay Amount
Non-preventive visits (such as visits for a sore throat, diabetes checkup, high fever, sore back, etc.) provided by a physician, physician assistant, advanced practice nurse, certified professional midwife, chiropractor, acupuncturist, podiatrist, audiologist, or eye doctor. There are no copays for mental health services.	$3.00
Diagnostic procedures (for example, endoscopy, arthroscopy)	$3.00
Emergency room visit when it is not an emergency	$3.50
Brand name prescriptions *The most you will have to pay in copays for prescriptions is $12.00 per month.*	$3.00
Generic prescriptions *The most you will have to pay in copays for prescriptions is $12.00 per month.*	$1.00

The most you will have to pay in copays for prescriptions is $12.00 per month. Copays will not be charged for some mental health drugs and most family planning drugs.

If you have Medicare, you must get most of your prescription drugs through a Medicare Prescription Drug Program (Medicare Part D) plan. You may have

different copays with no monthly limit for some of these services.

You must pay your copay directly to your provider. Some providers require that you pay the copay when you arrive for the medical service. The hospital may bill you after your non-emergency visit to the emergency room.

If you are unable to pay the copay, the provider must still provide services. This is true even if you have not paid your copay to that provider in the past or if you have other debts to that provider. The provider may still bill you for the unpaid copays.

We get information from the state about which members do not have copays. You may need to pay a copay until you are listed in our system as a person who does not have to pay copays.

Examples of services that **do not** have copays:

- Dental services
- Emergency services
- Eyeglasses
- Family planning services and supplies
- Home care
- Immunizations
- Inpatient hospital stays
- Interpreter services
- Medical equipment and supplies

This is not a complete list. Call Member Services at the phone number in Section 1 if you have questions.

Section 7. Covered Services

This section describes the major services that are covered under the Plan for Minnesota Senior Care Plus (MSC+) members. It is not a complete list of covered services. If you need help understanding what services are covered, call Member Services at the phone number in Section 1. Some services have limitations. Some services require a prior authorization. All health care services must be medically necessary for them to be covered. Call Member Services at the phone number in Section 1 for more information.

- Drugs used for cosmetic purposes including drugs to treat hair loss
- Drugs or products to promote weight loss
- Drugs not clinically proven to be effective
- Experimental or investigational drugs
- Medical cannabis

Notes:

The drug must be on our list of covered drugs (formulary).

The list of covered drugs (formulary) includes the prescription drugs covered by Medica. The drugs on the list are selected by the plan with the help of a team of doctors and pharmacists. The list has to be similar to the list covered by Fee-for-Service Medical Assistance (Medicaid). The list also must include drugs listed in the Department of Human Services' Preferred Drug List (PDL).
In addition to the prescription drugs covered by Medica, some over-the-counter drugs are covered for you under your Medical Assistance (Medicaid) benefits. You can search for prescription drugs using our online search tool at www.medica.com/choicecaremsc. A list of covered drugs (formulary) is also

posted on the website. You can also call Member Services and ask for a written copy of our list of covered drugs (formulary).

If a drug you were taking previously is not covered under your new plan, you may be able to receive up to a 90-day temporary supply. For more information, call Member Services.

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

- **Prior Authorization (PA):** Medica requires you or your doctor or health care provider to get prior authorization for certain drugs. This means that you will need to get approval from Medica before you fill your prescriptions. If you don't get approval, Medica may not cover the drug.
- **Quantity Limits (QL):** For certain drugs, Medica limits the amount of the drug that Medica will cover.
- **Preferred/Non-Preferred (P/NP):** For some groups of drugs, Medica requires you to try the preferred drugs before paying for the non-preferred drugs. In order to receive a non-preferred drug, your doctor or health care provider will have to get prior authorization.
- **Age Requirements:** In some cases, there are age requirements for you to try certain drugs. A prior authorization is needed depending on your age and the specific drug prescribed.
- **Brand-name Drugs:** Brand-name version of the drug will be covered by Medica only when:
  1. Your prescriber informs Medica in writing that the brand name version of the drug is medically necessary; OR
  2. Medica prefers the dispensing of the brand-name version over the generic version of the drug; OR
  3. Minnesota Law requires the dispensing of the brand-name version of the drug

You can find out if your drug requires prior authorization, has quantity limits, has Preferred/Non-Preferred status, or has an age requirement by contacting Member Services or visiting our website at www.medica.com/choicecaremsc. A drug restriction or limit can be removed if your doctor submits a statement or documentation supporting the request. You can also get more information about

the restrictions applied to specific covered drugs by contacting Member Services or visiting our website at www.medica.com/choicecaremsc.

If Medica changes prior authorization requirements, quantity limits, and/or other restrictions on a drug you are currently taking, Medica will notify you and your prescriber of the change at least 10 days before the change becomes effective.

We will cover a non-formulary drug if your doctor shows us that: 1) the drug that is normally covered has caused a harmful reaction to you; 2) there is a reason to believe the drug that is normally covered would cause a harmful reaction; or 3) the drug prescribed by your doctor is more effective for you than the drug that is normally covered. The drug must be in a class of drugs that is covered.

We will cover an antipsychotic drug, even if it is not on our drug list, if your provider certifies this is best for you. There is no copay for antipsychotic drugs. In certain cases, we will also cover other drugs used to treat a mental illness or emotional disturbance even if the drug is not on our approved drug list. We will do this for up to one year if your provider certifies the drug is best for you and you have been treated with the drug for 90 days before: 1) we removed the drug from our drug list; or 2) you enrolled in the Plan.

For most drugs, you can get only a 30-day supply at one time.

If Medica does not cover your drug or has restrictions or limits on your drug that you don't think will work for you, you can do one of these things:

- You can ask your health care provider if there is another covered drug that will work for you.
- You and/or your health care provider can ask Medica to make an "exception" and cover the drug for you or remove the restrictions or limits. If your exception request is approved, the drug will be covered at the appropriate generic or brand name copay level.

Your healthcare provider can obtain the Minnesota Uniform Formulary Exception and Prior Authorization Form online from medica.com under Pharmacy Policies and Guidelines or by calling 1-800-753-2851 (toll free). TTY: 711. This form must be returned to the fax number or address listed on the document. To facilitate a thorough review, Medica asks that all information requested in the form be

provided, including documentation of which medications have been tried and failed, including the dosages used, and the identified reason for failure.

If pharmacy staff tells you the drug is not covered and asks you to pay, ask them to call your doctor. We cannot pay you back if you pay for it. There may be another drug that will work that is covered by us under the Plan. If the pharmacy won't call your doctor, you can. You can also call Member Services at the phone number in Section 1 for help.

Specialty drugs are used by people with complex or chronic diseases. These drugs often require special handling, dispensing, or monitoring by a specially-trained pharmacist.

If you are prescribed a drug that is on the Medica Specialty Drug List, your prescriber will need to send the prescription of that specialty drug to Medica's Specialty Pharmacy.

Name of Specialty Pharmacy: Accredo Specialty Pharmacy

Call Member Services at the phone number in Section 1 as soon as possible when you get urgent care outside the Plan service area.

Section 8. Services we do not cover

Section 11. Using the Plan coverage with other insurance

If you have other insurance, tell us before you get care. We will let you know if you should use the Plan network providers or the health care providers used by your other insurance. We will coordinate our payments with them. This is called "coordination of benefits." Examples of other insurance include:

- No-fault car insurance
- Workers' compensation
- Medicare
- Tricare
- Other Health Maintenance Organization (HMO) coverage
- Other commercial insurance

When you become a member of the Plan, you agree to:

- Let us send bills to your other insurance
- Let us get information from your other insurance
- Let us get payments from your other insurance instead of having payments sent to you
- Help us get payments from your other insurance

If your other insurance changes, call your county worker.

Section 12. Subrogation or other claim

You may have other sources of payment for your medical care. They might be from another person, group, insurance company or other organization. Federal and state laws provide that Medical Assistance (Medicaid) benefits pay only if no other source of payment exists. If you have a claim against another source for injuries, we will make a separate claim for medical care we covered for you. The laws require you to help us do this. The claim may be recovered from any source that may be responsible for payment of the medical care we covered for you. The amount of the claim will not be more than federal and state laws allow.

Section 13. Grievance, appeal and state appeal (Fair Hearing with the State) process

This section tells you about the grievance and appeal system including notices, grievances (complaints), health plan appeals, and state appeals (Fair Hearings with the state). It tells you how and when to use the grievance and appeal system if you are not satisfied with your health care or disagree with a decision we made. It tells you about your rights when using the grievance and appeal system.

Please call Member Services at the phone number in Section 1 if you have questions or want help filing a grievance or appeal.

Grievance and appeal system terms to know:

A grievance is when you are not satisfied with the services you have received and may include any of the following:

- quality of care or services provided
- failure to respect your rights
- rudeness of a provider or health plan employee
- delay in appropriate treatment or referral
- not acting within required time frames for grievances and appeals

A denial, termination or reduction (DTR) (notice of action) is a form or letter we send you to tell you about a decision we made on a request for service, payment of a claim, or any other request. The notice will tell you how to file an appeal with the health plan or request a state appeal (Fair Hearing with the state) if you disagree with our decision.

<u>A health plan appeal</u> is your request for us to review a decision we made. You may ask for an appeal if you disagree with our decision in any of the following **actions** (decisions)**:**

- denial or limited authorization of the type or level of service requested by your provider
- reduction, suspension, or stopping of a service that was approved before
- denial of all or part of payment for a service
- not providing services (including transportation) in a reasonable amount of time
- denial of a member's request to get services out of network for members living in a rural area with only one health plan
- not providing a response to your grievance or appeal in the required timelines
- denial of your request to dispute your financial liability including copayments and other cost sharing

Your provider may Appeal on your behalf with your written consent. Your treating provider may Appeal a Prior Authorization decision without your consent.

<u>A state appeal (Fair Hearing with the state)</u> is your request for the state to review a decision we made. You must appeal to Medica before asking for a state appeal. If we take more than 30 days to decide your appeal and we have not asked for an extension, you do not need to wait for our decision to ask for a state appeal. You may appeal any of these actions (decisions):

- denial or limited authorization of the type or level of service
- reduction, suspension, or stopping of a service that was approved before
- denial of all or part of a payment for a service
- not providing services in a reasonable amount of time
- our failure to act within required timelines for prior authorizations and appeals
- financial liability including copayments or other cost sharing
- any other action

<u>Important Timelines for Appeals</u>

You must follow the timelines for filing health plan appeals and state appeals (Fair Hearing with the state). If you go over the time allowed, we may not review your appeal and the state may not accept your request for an appeal.

You must appeal to us **within 60 days** from the date of the DTR (notice of action). We can give you more time if you have a good reason for missing the deadline. You must file an appeal with us **before** you request a state appeal. If we take more than 30 days to decide your appeal and we have not asked for an extension, you can request a state appeal without waiting for us.

You must request a state appeal **within 120 days** of our appeal decision.

If we are stopping or reducing a service, you can keep getting the service if you file a health plan appeal **within 10 days** from the date on the notice, or before the service is stopped or reduced, whichever is later. **You must ask to keep getting the service when you file an appeal.** The service can continue until the appeal is decided. If you lose the appeal, you may be billed for these services, but only if state policy allows it.

If you lose the appeal, you may keep getting the service during a state appeal if you request a state appeal within 10 days from the date of the decision on your plan appeal.

For the Restricted Recipient Program, a member who receives a notice of restriction may file an appeal with us. You must file an appeal **within 60 days** from the date on the notice. You must appeal within 30 days to prevent the restriction from being implemented during your appeal. You may request a state appeal after receiving our decision.

To file an oral or written appeal with us:

You may appeal by phone, writing, fax, or in person. The contact information and address is found in section 1 under “Appeals and Grievances.”

If you call us with your appeal, it must be followed by a written appeal, unless you are requesting a fast resolution. We will help you complete a written appeal. We will ask you to sign and return the written appeal.

Fast appeals are for urgently needed services. If we agree that it is urgent, we will give you a decision within 72 hours. We will try to call you with the decision before we send the decision in writing.

We may take up to 14 extra days if we need more information and it is in your best interest or if you request extra time. We will tell you why we are taking the extra time.

If your appeal is not urgent, we will tell you within 10 days that we received it. We will give you a written decision within 30 days. We may take up to 14 extra days if we need more information and it is in your best interest or if you request extra time. We will tell you we are taking the extra time and why.

The person making the decision will not be the same person who was involved in the prior review or decision-making.

If we are deciding an appeal about a service that was denied because it was not medically necessary, the decision will be made by a health care professional with appropriate clinical expertise in treating your condition or disease.

You or your representative may present your information in person, by telephone, or in writing.

If you appeal, we will send you or your representative the case file upon request, including medical records and any other documents and records considered by us during the appeal process.

To file a state appeal (Fair Hearing with the state) with the Minnesota Department of Human Services:

You must file a health plan Appeal with us **before** you ask for a State Appeal. You must ask for a state appeal **within 120 days** from the date of our appeal decision (resolution).

Your appeal to the state must be in writing. You can write to the Minnesota Department of Human Services to request a state appeal.

Write to: Minnesota Department of Human Services
Appeals Office
P.O. Box 64941
St. Paul, MN 55164-0941

File online at: https://edocs.dhs.state.mn.us/lfserver/Public/DHS-0033-ENG
Or fax to: 651-431-7523

Tell the state why you disagree with the decision we made. You can ask a friend, relative, advocate, provider, or lawyer to help you. Your provider must have your written permission to request a state appeal for you.

A human services judge from the state Appeals Office will hold a hearing. You may ask to attend the hearing by telephone, by video, or in person. You can ask your providers or others to give testimony. You can provide documents for the judge to consider.

The process can take 90 days. If your hearing is about an urgently needed service, tell the Judge or the Ombudsman when you call or write to them.

If your hearing is about a service that was denied because it was not medically necessary, you may ask for review by a medical expert. The medical expert is independent of both the state and Medica. The state pays for this review. There is no cost to you.

If you do not agree with the human service judge's decision, you may ask the state to reconsider their decision. Send a written request for reconsideration to the Minnesota Department of Human Services Appeals Office within 30 days from the date of the decision. The contact information is listed earlier in this section.

If you do not agree with the state's decision, you may appeal to the district court in your county.

Section 15. Additional information

Provider payment methodology (including physician incentive plans)
This section describes how we generally pay providers for health services.

Network providers

Network providers are paid using various types of contractual arrangements. These are intended to promote the delivery of health care in a cost efficient and effective manner. These arrangements are not intended to affect your access to health care. These payment methods may include:

1. A fee-for-service method, such as per service or percentage of charges, or
2. A risk-sharing arrangement, such as an amount per day, per stay, per episode, per case, per period of illness, per member or per service with targeted outcome.

The methods by which specific network providers are paid may change from time to time. Methods also vary by network provider. The primary method of payment under Medica Choice Care (MSC+) is fee-for-service.

Fee-for-service payment means that Medica pays the network provider a fee for each service provided. If the payment is per service, the network provider's payment is determined according to a set fee schedule. The amount the network provider receives is the lesser of the fee schedule or what the network provider would have otherwise billed. If the payment is percentage of charges, the network provider's payment is a set percentage of the provider's charge. The amount paid to the network provider, less any applicable copayment, coinsurance or deductible, is considered to be payment in full.

Risk-sharing payment means that Medica pays the network provider a specific amount for a particular unit of service. These can be an amount per day, an amount per stay, an amount per episode, an amount per case, an amount per period of illness, an amount per member, or an amount per service with targeted outcome. Sometimes the amount paid is less than the cost of providing or arranging for a member's health services. Then the network provider may bear some of the shortfall. If the amount paid to the network provider is more than the cost of providing or arranging a member's health services, the network provider may keep some of the excess.

Withhold arrangements

Some network providers are paid on a fee-for-service basis. This includes most network physicians and clinics. Then Medica holds back some of the payment. This is sometimes referred to as a physician contingency reserve or holdback. The withhold amount generally will not exceed 15 percent of the fee schedule amount. In general, Medica does not hold back a portion of network hospitals' fee-for-service payments. However, when it does, the withhold amount will not usually exceed 5 percent of the fee schedule amount.

Network providers may earn the withhold amount based on Medica's financial performance as determined by Medica's Board of Directors and/or certain performance standards identified in the network provider's contract including, but not limited to, quality and utilization. Based on individual measures, the percentage of the withhold amount paid, if any, can vary among network providers.

Non-network providers

When a service from a non-network provider is covered, the non-network provider is paid a fee for each covered service that is provided. This payment may be less than the charges billed by the non-network provider. For more information, call Medica Member Services and ask for information about our physician incentive plans. We will send it to you within 30 days.
