ABOUT VANTAGEPLUS

Two award-winning health care systems have partnered to offer convenient access to a broad network of health care providers. VantagePlus with Medica, one of the largest accountable care organizations in Minnesota, features an integrated member experience, a commitment to clinical quality and a focus on delivering cost-effective health care.

VantagePlus with Medica includes 3,500 primary and specialty care physicians, 650 clinics and 12 hospitals – health care providers you know and trust from Fairview (which now includes HealthEast), North Memorial Health and many popular independent clinics.

What is an Accountable Care Organization?

Accountable care organizations (ACOs) are networks or teams of health care providers (such as clinics, hospitals, doctors, and specialists) that collaborate with Medica to make health care more efficient and improve the member experience. The network may be smaller than Medica's other open access networks, but the benefits are significant.

ACOs Deliver Results

ACOs deliver improvements in:

- » **Costs** – cost savings compared to open-access products
- » **Clinical quality** – better member engagement and care coordination
- » **Consumer experience** – 97% of members renew into an ACO product*

*Results based on 2017 enrollment

Travel Program

If members travel out of the plan's service area (Minnesota, North Dakota, South Dakota and western Wisconsin) and need care, they have access to the Travel Program Network. This nationwide network is one of the largest in the country. If members have children attending college outside the service area, they can use this network, too.

WHEN IT COMES TO HEALTH CARE, EVERYONE WANTS TO HAVE CHOICES.

We know it's important to offer your employees options that will best meet their needs. If VantagePlus with Medica is not the right fit for an employee, they have the option to choose Medica Choice® Passport, which offers the largest network of providers.

Medica Choice Passport is an open access plan that lets your employees choose from any doctor, clinic or facility throughout the large network of more than 900,000 physicians and more than 5,600 hospitals nationwide. Regardless of their choice, employees have access to quality care and they can pick a plan that provides the care, convenience and cost savings they want.
