

Should I  
be concerned  
about this rash?

I'm confused. Do  
I need this health  
screening or not?

How do I know  
if it's a cold or  
the flu?

## Medica® CallLink® nurses can help answer your health questions any time.

Maybe you're wondering if you need to see a doctor or if it's best to try to tough it out at home. Or maybe you have questions about a health condition or you're wondering about side effects or symptoms. CallLink nurses are here for you any time, 24/7, to help you get the care you need.

I don't understand why my doctor prescribed this medication.

Should I go to the ER or urgent care, or wait to see my doctor?

Is there any point (pardon the pun) in getting a flu shot now?
