2023 List of Covered Drugs (Formulary)

The information included in this list of covered drugs was correct as of 10/2023.

To get the most current information, contact Medica Member Services or visit **Medica.com/Members**. If you have questions, contact Member Services at the number listed on this page. You can ask for a printed copy of this Medicaid List of Covered Drugs at any time.

DHS Accepted Date 11/02/2022.

PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION ABOUT THE DRUGS WE COVER IN THIS PLAN. Members must use Medica network pharmacies to receive prescription drug benefits.

This list is subject to change and is not all-inclusive. The document is subject to state-specific regulations and rules, including, but not limited to, those regarding generic substitution, controlled substance schedules, preference for brands and mandatory generics whenever applicable. Note to existing members: This list of covered drugs has changed since last year and may change throughout the year.

Please review this document to make sure the drugs

you take are still on the list. Please contact Medica Member Services at the number listed on this page with questions. You can also find updates to this list at **Medica.com/SNBCdrugs** (AccessAbility Solution), **Medica.com/MSCdrugs** (MSC+), **Medica.com/PMAPdrugs**, or **Medica.com/MNCAREdrugs**.

If you have Medicare, you need to get most of your prescription drugs through the Medicare Prescription Drug Program (Medicare Part D). You must be enrolled in a Medicare prescription drug plan to get Medicare prescription drug benefits.

You have the right to file a complaint with DHS if you believe you have been discriminated against in our health care programs because of any of the following:

- race
- color
- national origin
- religion (in some cases)
- age
- disability (including physical or mental impairment)
- sex (including sex stereotypes and gender identity)

Complaints must be in writing and filed within 180 days of the date you discovered the alleged discrimination. The complaint must contain your name and address and describe the discrimination you are complaining about. We will review it and notify you in writing about whether we have authority to investigate. If we do, we will investigate the complaint.

DHS will notify you in writing of the investigation's outcome. You have the right to appeal if you disagree with the decision. To appeal, you must send a written request to have DHS review the investigation outcome. Be brief and state why you disagree with the decision. Include additional information you think is important.

If you file a complaint in this way, the people who work for the agency named in the complaint cannot retaliate against you. This means they cannot punish you in any way for filing a complaint. Filing a complaint in this way does not stop you from seeking out other legal or administrative actions.

IMPORTANT INFORMATION

What is a list of covered drugs?

A list of covered drugs includes the prescription drugs covered by Medica. The drugs on the list are selected by Medica with the help of a team of doctors and pharmacists. Medica will generally cover the drugs listed in the list of covered drugs as long as the drug is medically necessary, the prescription is filled at a Medica network pharmacy, and other requirements related to the drug are followed.

Most drugs and certain supplies are available up to 30-day supply. Certain drugs you take on a regular basis for a chronic or long-term condition are available up to a 90-day supply and are identified on this List of Covered Drugs as Maintenance Drug (**M**). Go to the “List of Abbreviations” for definitions of these.

Does the list of covered drugs ever change?

The Medica list of covered drugs can change during the course of a calendar year. If changes affect the coverage of a drug you are taking, Medica will make reasonable efforts to contact you and your prescriber to tell you about the change. Medica will also tell you about alternative drugs that are covered.

Examples of some changes that may occur are:

- A drug you are taking is no longer preferred (Refer to “What is a Preferred Drug List?” below).
- A drug is removed from the list of covered drugs for safety reasons.
- Prior authorization requirements have changed. (Refer to “Are there any restrictions on my coverage?”)

How are drugs listed in the list of covered drugs?

There are two ways to find your drug within the List of Covered Drugs:

Medical Condition

The List of Covered Drugs begins on page 3. The drugs in this list are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category, “Beta Blockers”. If you know what your drug is used for, look for the category name in the list that begins on page 3. Then look under the category name for your drug.

Alphabetical Listing

The List of Covered Drugs Index provides an alphabetical list of all of the drugs included in this document. Both brand name drugs and generic drugs are listed in the Index. Look in the Index and find your drug. Next to your drug, you will see the page number where you can find

coverage information. Find the page listed in the Index and find the name of your drug in the second column of the list.

Note: To search the formulary when viewing it on a computer, use Ctrl + F on your keyboard and type in the search term.

What is a Preferred Drug List?

In Minnesota, all health plans are required to use the Minnesota Department of Human Services' (DHS) Preferred Drug List (PDL). The PDL is created by DHS, in consultation with the Drug Formulary Committee, to let prescribers and members know about drugs or drug classes that are cost effective. Generally, drugs that are "preferred" are more cost effective and drugs that are "non-preferred" are less cost effective. Preferred drugs are available to members with fewer restrictions. Non-preferred drugs require a prior authorization. To get a non-preferred drug, your doctor or health care provider must get prior authorization. The PDL is included as part of Medica's list of covered drugs. Medica's complete list of covered drugs includes other drugs in addition to those on the PDL. The PDL is available on DHS's website at <http://minnesota.magellanmedicaid.com/pdl.asp>.

What are generic or biosimilar drugs?

A generic drug is approved by the Food and Drug Administration (FDA) and has the same active ingredients as the brand name drug. It produces the same clinical effect as the brand name drug.

A biosimilar drug is an FDA-approved biologic drug (most often an injectable prescription drug) that is highly similar to an already-approved biological product. It has no clinically meaningful differences in terms of safety and effectiveness. Biosimilar drugs are not the same as generic drugs, but like generics, biosimilar drugs may offer more affordable treatment options.

Generic or biosimilar substitution means a generic version or biosimilar version of a drug is given instead of the brand name or non-biosimilar version of the drug.

Medica will cover the brand name or non-biosimilar version of the drug only when:

1. Your prescriber informs Medica in writing that the brand name or non-biosimilar version of the drug is medically necessary; OR
2. Medica may prefer the dispensing of certain brand name versions over the generic or non-biosimilar version over the biosimilar version of the drug; OR
3. Minnesota law requires the dispensing of the brand name or non-biosimilar version of the drug.

Within the list of covered drugs, brand name drugs are identified in all capital letters and generic drugs are identified in lower case letters.

What are over-the-counter drugs?

Drugs and products that are available for purchase without a prescription are referred to as over-the-counter (OTC). Although an OTC product is available without a prescription, if a doctor

writes a prescription for an OTC product, Medica may cover it. Within the list of covered drugs, OTC drugs and products are identified as OTC in the Requirements/Limits column.

What are specialty drugs?

Specialty drugs are used by people with complex or chronic diseases. These drugs often require special handling, dispensing, or monitoring by a specially trained pharmacist.

If you are prescribed a drug that is on the Medica Specialty Drug List, your prescriber will need to send the prescription to Medica's specialty pharmacy.

Name of Specialty Pharmacy: Accredo Specialty Pharmacy

Phone and TTY: 1 (866) 544-6817 (TTY: 711). This call is free.

Fax: 1 (877) 329-4605

Hours of Operation: Monday-Friday 7 a.m. – 10 p.m. CT, and Saturday 7 a.m. – 4 p.m. CT

You will also need to call the specialty pharmacy to set up an account. You will need to have your Medica member identification card when you call the specialty pharmacy.

What if a drug is not on the list of covered drugs?

Not all drugs are covered. If a drug you want to take is not listed in the list of covered drugs, you can call Member Services at 1 (888) 347-3630 for Medica AccessAbility Solution and Medica Choice Care MSC+, or 1 (800) 373-8335 for Medica Choice Care PMAP and Medica MinnesotaCare, or 711 for TTY and ask if the drug is covered. If not, it is considered a “non-formulary” drug. If you need a drug that is not included in the list of covered drugs, you may request a formulary exception by contacting Medica Member Services at the numbers listed above.

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include the following:

Prior authorization: Medica requires you or your doctor or health care provider to get prior authorization for certain drugs. This means that you will need to get approval from Medica before you fill your prescription. If you don't get approval, Medica may not cover the drug.

Quantity limits: For certain drugs, Medica limits the amount of the drug that we will cover.

Age requirements: Some drugs have age requirements. A prior authorization may be needed depending on your age and the specific drug prescribed.

You can find out if your drug requires prior authorization, has quantity limits, or has an age requirement by looking in this list of covered drugs. An exception to a drug restriction or limit can be made if your doctor submits a statement or documentation supporting the request.

Refer to *Prescription Drugs* in Section 7: Covered Services of your Member Handbook for more information. You can also get more information about the restrictions applied to specific covered drugs by calling Member Services at 1 (888) 347-3630 for Medica AccessAbility Solution and Medica Choice Care MSC+, or 1 (800) 373-8335 for Medica Choice Care PMAP and Medica MinnesotaCare, or 711 for TTY or by visiting our website at [Medica.com](https://www.Medica.com). Also refer to “Can I ask for an exception to the coverage restrictions?”

● **Excluded drugs:** Some drugs are excluded from the list of covered drugs. This means they are not covered. Excluded drugs include the following:

- Drugs used to treat sexual or erectile dysfunction
- Drugs used to enhance fertility
- Drugs used for cosmetic purposes, including drugs to treat hair loss
- Drugs excluded from coverage by federal or state law
- Experimental drugs, investigational drugs, or drugs not approved by the Food and Drug Administration (FDA)
- Medical cannabis

Can I ask for an exception to the coverage restrictions?

Yes. You or your health care provider can get the Minnesota Uniform Form for Prescription Drug Prior Authorization (PA) Requests and Formulary Exceptions from [Medica.com](https://www.Medica.com) or by calling Member Services at 1 (888) 347-3630 for Medica AccessAbility Solution and Medica Choice Care MSC+, or 1 (800) 373-8335 for Medica Choice Care PMAP and Medica MinnesotaCare, or 711 for TTY. Your provider must return this form to the fax number or address listed on the document. To allow for a thorough review and to ensure that you or your health care provider gets a response within 24 hours, all information requested in the form should be provided, including documentation of which medications have been tried and failed, including the dosages used and the reason for failure (e.g., side effects).

What will a prescription cost?

All copay information for prescriptions is listed in the Member Handbook in Section 6: Cost-Sharing. If you have additional questions, call Member Services at 1 (888) 347-3630 for Medica AccessAbility Solution and Medica Choice Care MSC+, or 1 (800) 373-8335 for Medica Choice Care PMAP and Medica MinnesotaCare, or 711 for TTY or visit our website at [Medica.com](https://www.Medica.com).

C: Control Drug

M: 90 Day Maintenance

OTC: Over the Counter. An OTC drug is a non-prescription drug.

PA: Prior Authorization. The Plan requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval before you fill your prescriptions. If you don't get approval, we may not cover the drug.

PDL-NP: Minnesota's Non-Preferred Drug List requires prior authorization. The Plan requires you or your physician to get prior authorization for certain drugs. This means that you will need to get approval before you fill your prescriptions. If you don't get approval, we may not cover the drug.

PDL-P: Minnesota defined Preferred Drug List

QL: Quantity Limit. For certain drugs, the Plan limits the amount of the drug that we will cover.

SP: Specialty Drug

ST: Step Therapy. In some cases, the Plan requires you to first try certain drugs to treat your medical condition before we will cover another drug for that condition. For example, if Drug A and Drug B both treat your medical condition, we may not cover Drug B unless you try Drug A first. If Drug A does not work for you, we will then cover Drug B.
