Summary
This policy addresses reimbursement for services provided by an assistant surgeon.

Policy Statement
An assistant surgeon actively assists the primary surgeon performing a surgical procedure.

Codes eligible for reimbursement for an assistant surgeon are designated by the Centers for Medicare and Medicaid Services (CMS) with minor modifications. Individual consideration may be made when there are extenuating circumstances, supported by documentation establishing medical necessity.

Assistant surgeons submit the identical procedure code(s) as the primary surgeon, with the appropriate modifier (80, 81, 82, or AS) to represent their service(s).

The reimbursement amount is dependent upon the assistant surgeon modifier appended to the surgical code submitted. Only one assistant surgeon will be reimbursed for each eligible procedure.

Modifier AS is used when a non-physician is performing assistant surgeon services. Eligible non-physician providers include:

- Physician assistants
- Nurse practitioners
- Clinical nurse specialists

Note: Medica also allows reimbursement to Registered Nurse First Assistants (RNFA). Surgical procedures eligible for assistant surgeon performed by RNFAs must be billed using the primary surgeon’s provider number, including the same surgical code as the primary surgeon, appended with the AS modifier.
