Engage by Medica

Overview
Mayo Clinic and Medica have worked together to make care more affordable and accessible in southern Minnesota. Engage by Medica℠ is a localized health insurance product featuring Mayo Clinic care in Rochester and throughout southern Minnesota as well as western Wisconsin. It is available to Medica individual and family business (IFB) members.

Members may see any provider in the network without a referral. All network providers have direct access to Mayo Clinic resources and expertise locally. If the provider determines that more specialized care is needed, they will make the appropriate arrangements for that care in the location most convenient for the patient. In-network providers should follow normal referral processes as a necessary component of care protocols, as well to ensure appropriate reimbursement. Lack of a referral (within the network) will not impact the member benefit. Members do not have benefits for out-of-network providers.

To verify which providers are included in the Engage by Medica provider network, see the provider directory on medica.com.
