

ADHD (5-18 years) Management

MEDICA®

Question

1. For children with a newly prescribed ADHD medication within the last year, there was a follow-up visit with a prescribing provider within 30 days of when the first ADHD medication was prescribed?
2. If YES to #1 and the child continued on the ADHD medication, did he/she have at least 2 more ADHD visits, with medication management, within the next 9 months with a provider after the initial visit?
3. Is there documentation that there has been communication with the child's teacher (children in K-6) in the past year regarding child's progress in school?
4. If the initial diagnosis was in the past year, is there documentation that the child has received anticipatory guidance regarding ADHD within the first 2 months after diagnosis?
