TITLE: INPATIENT (HOSPITAL) LEVEL OF CARE

EFFECTIVE DATE: September 09, 2019

IMPORTANT INFORMATION – PLEASE READ BEFORE USING THIS POLICY
These services may or may not be covered by all Medica plans. Please refer to the member’s plan document for specific coverage information. If there is a difference between this general information and the member’s plan document, the member’s plan document will be used to determine coverage.

With respect to Medicare and Minnesota Health Care Programs, this policy will apply unless these programs require different coverage.

Medica may use tools developed by third parties, such as MCG Care Guidelines®, to assist in administering health benefits. Medica utilization management (UM) policies and MCG Care Guidelines are not intended to be used without the independent clinical judgment of a qualified health care provider taking into account the individual circumstances of each member’s case. Medica UM policies and MCG Care Guidelines do not constitute the practice of medicine or medical advice. The treating health care providers are solely responsible for diagnosis, treatment, and medical advice.

Members may contact Medica Customer Service at the phone number listed on their member identification card to discuss their benefits more specifically. Providers with questions about this Medica UM policy may call the Medica Provider Service Center toll-free at 1-800-458-5512.

PURPOSE
To promote consistency between reviewers in utilization management decision-making by providing the criteria that generally determine the medical necessity of inpatient admissions and continued stay. The Benefit Considerations box below outlines the process for addressing the needs of individuals who do not meet these criteria.

MEDICAL NECESSITY CRITERIA
For medical necessity criteria, Medica uses MCG™ Care Guidelines, 23rd edition, 2019, Inpatient and Surgical Care (ISC) and General Recovery Care (GRC).

BENEFIT CONSIDERATIONS
1. Notification of inpatient admission is required as specified in the hospital participation agreement. Prior authorization for inpatient admission is not required. However, health services may be reviewed concurrently or retrospectively to determine if medical necessity criteria were met. Denial may result if criteria were not met. Please see the prior authorization list for product specific prior authorization requirements.
2. Inpatient clinical records, when requested by Medica, must be submitted by facilities to Medica within 24 hours or 1 business day.
3. Coverage may vary according to the terms of the member’s plan document.
4. For patients not meeting criteria for acute inpatient level of care, alternative levels of care may be appropriate such as a skilled nursing facility, hospice, transitional care, observational status, or short-term home health.
5. Although prior authorization is not required, the following process is used for an individual case review:
6. If the Medical Necessity and Coverage Criteria are met, Medica will administer benefits within the limits in the member's coverage document.
7. If it appears that the Medical Necessity and Coverage Criteria are not met, the individual's case will be reviewed by the medical director or an external reviewer. If services are denied, related claims will be denied as provider liability, unless the member has signed a pre-service payment consent form indicating that the member...
understands that the specific health services were not covered and that the member is financially liable. Practitioners are advised of the appeal process in their Medica Provider Administrative Manual.
