Cancellation Within First Ten Days

The subscriber may cancel this Policy by delivering or mailing a written notice to **Medica Insurance Company, 401 Carlson Parkway, Attn: Customer Service, Route CP595, Minnetonka, MN 55305** or to an agent of the company. This Policy must be returned before midnight the tenth day after the date you receive this Policy and then this Policy is considered void from the beginning. Notice given by mail and return of this Policy are effective when postmarked, properly addressed, and postage prepaid. MEDICA shall return all premiums within ten days after it receives notice of cancellation and the returned Policy. However, the subscriber must then pay any claims incurred prior to such cancellation.

Discrimination is Against the Law

Medica complies with applicable Federal civil rights laws and will not discriminate against any person on the basis of race, color, national origin, age, disability or sex. Medica:

- Provides free aids and services to people with disabilities to communicate effectively with us, such as: TTY communication and written information in other formats (large print, audio, other formats).
- Provides free language services to people whose primary language is not English, such as: Qualified interpreters and information written in other languages.

If you need these services, call the number included in this document or on the back of your Medica ID card. If you believe that Medica has failed to provide these services or discriminated in another way on the basis of race, color, national origin, age, disability or sex, you can file a grievance with: Civil Rights Coordinator, Mail Route CP250, PO Box 9310, Minneapolis, MN 55443-9310, 952-992-3422 (phone/fax), TTY 711, civilrightscoordinator@medica.com.

You can file a grievance in person or by mail, fax, or email. You may also contact the Civil Rights Coordinator if you need assistance with filing a complaint.

You can also file a civil rights complaint with the U.S. Department of Health and Human Services, Office for Civil Rights, electronically through the Office for Civil Rights Complaint Portal, available at <https://ocrportal.hhs.gov/ocr/portal/lobby.jsf> or by mail or phone at: U.S. Department of Health and Human Services, 200 Independence Avenue, SW Room 509F, HHH Building, Washington, D.C. 20201, 800-368-1019, 800-537-7697 (TDD). Complaint forms are available at <http://www.hhs.gov/ocr/office/file/index.html>.

Helpful Resources

Medica Customer Service

Call the Medica Customer Service phone number on the back of your Medica ID card (TTY: **711**) if you have any questions. Health Plan Specialists are available 8 a.m. – 6 p.m. Central Monday – Friday (Closed 8 – 9 a.m. Thursdays). You can also send a secure message at medica.com/ContactOnline.

Marketplace Contact Center

Call **1-800-318-2596** (TTY: **1-855-889-4325**) if you purchased your coverage through the Health Insurance Marketplace, referred to in this Policy as the "Marketplace", and need assistance with your financial help (tax credits) or need to make changes to the demographic information on this Policy. Or visit healthcare.gov/Contact-Us.

Nurse Line

Call **1-866-668-6548** (TTY: **711**) to talk with a nurse for advice on where and when to get care, or how to provide care safely at home. Available 24/7. In a medical emergency, please call **911**.

Secure Member Site

You can view much of the information you may need by logging into your secure member site at medicamember.com. The website allows you to view information specific to you and your plan:

- View your ID card
 - See what's covered by your plan, including important plan documents
 - Track your plan balances, such as your deductible and out-of-pocket maximum
 - View your claims and explanations of benefits (EOBs)
 - Look up prices for prescriptions and how they're covered by your plan
 - Look up providers and pharmacies in your network
 - Access wellness tools and support
 - Pay your premium
-

Important Notice: This plan is an Exclusive Provider Organization (EPO) plan. EPO plans cover health care services only when provided by a doctor or facility who participates in the network. If you receive services from a non-network doctor or other health care provider, you will have to pay all of the costs for the services, except that emergency services must be covered regardless of whether they are delivered by a participating provider.

Terms and Conditions

Term of this Policy

This Policy is a legal contract between the subscriber and Medica Insurance Company (Medica) and describes the benefits covered under this Policy.

All coverage under this Policy begins and ends at 12:01 a.m. Central Time on the date the coverage becomes effective.

Entire agreement

The documents below are the entire Policy between you and Medica, and replace all other agreements as of the effective date of this Policy.

1. This Policy of Coverage, the Benefit Chart section of this Policy of Coverage, any amendments; and
2. Your application for coverage.

Guaranteed renewal

This Policy will not be canceled or non-renewed merely because your health deteriorates. Renewal is subject to Medica's right to terminate this Policy due to your non-payment of premium or for fraud or intentional misrepresentation of a material fact, or as otherwise described in *Ending Coverage*. Medica has the right to change the premium as allowed under Missouri law.

Nondiscrimination policy

Medica's policy is to treat all persons alike, without distinctions based on:

- race
- color
- creed
- religion
- national origin
- gender
- gender identity
- marital status
- status with regard to public assistance
- disability
- sexual orientation
- age
- genetic information; or
- any other classification protected by law.

If you have questions, call Customer Service at the number on the back of your Medica ID card.

Assignment

Medica will have the right to assign any and all of its rights and responsibilities under this Policy to any subsidiary or affiliate of Medica or to any other appropriate organization or entity.

Acceptance of coverage

By accepting the health care coverage described in this Policy you, on behalf of yourself if covered under this Policy, and/or on behalf of the dependents enrolled under this Policy, authorize the use of a social security number for purpose of identification and declare that the information supplied to Medica for purposes of enrollment is accurate and complete.

You understand and agree that any omissions or incorrect statements that you knowingly made in connection with your enrollment under this Policy may invalidate your coverage.

Amendment

This Policy or the Benefit Chart section of this Policy may be amended as described in this Policy. When this happens, you will receive a new policy or amendment approved and signed by an executive officer of Medica. No other person or entity has authority to make any changes or amendments to this Policy. All amendments must be in writing.

Discretionary authority

Medica has discretion to interpret and construe all of the terms and conditions of this Policy and make determinations regarding benefits and coverage under this Policy.

Certain terms are specifically defined in this Policy and Medica will interpret and construe the terms and conditions consistent with those definitions. It is important that you read and understand the defined terms.

Clerical error

You will not be deprived of coverage under this Policy because of a clerical error. However, you will not be eligible for coverage beyond the scheduled termination of your coverage because of a failure to record the termination.

Relationship between parties

The relationships between Medica and network providers are contractual relationships between independent contractors. Network providers are not agents or employees of Medica. The relationship between a provider and any member is that of health care provider and patient. The provider is solely responsible for health care provided to any member.

Notice

Except as otherwise provided in this Policy, written notice given by Medica to the subscriber will be deemed notice to all individuals covered under this Policy in the event of termination or nonrenewal of this Policy for any reason.

Cancellation

Your coverage may be canceled only under certain conditions. See *Ending Coverage* for additional information.

Reinstatement

If any renewal premium is not paid within the time granted the subscriber for payment, a subsequent acceptance of premium by Medica shall reinstate this Policy. In all other respects the subscriber and Medica will have the same rights under this Policy as they had immediately before the due date of the defaulted premium, subject to any provisions endorsed hereon or attached hereto in connection with a reinstatement.

Examination of a member

To settle a dispute concerning provision or payment of benefits under this Policy, Medica may require that you be examined or an autopsy of the member's body be performed. The examination or autopsy will be at Medica's expense.

Language interpretation

Language interpretation services will be provided upon request, as needed in connection with the interpretation of this Policy. If you would like to request language interpretation services, please call Customer Service at the number on the back of your Medica ID card.

If this Policy is translated into another language or an alternative communication format is used, this written English version governs all coverage decisions.

If you need alternative formats, such as large print or an audio format, please call Customer Service at the number on the back of your Medica ID card to request these materials.

Policy

This Policy is a legal contract between the subscriber and Medica and describes the benefits covered under this Policy.

IN WITNESS WHEREOF, Medica's Senior Vice President and General Manager of Individual and Family Business and Senior Vice President and Secretary hereby sign your contract.

Senior Vice President and General Manager of
Individual and Family Business

Senior Vice President and Secretary

I. Introduction

A. About this Policy

This Medica Policy describes health services that are eligible for coverage and the procedures you must follow to obtain benefits. Because many provisions are interrelated, you should read this Policy in its entirety. The most specific and appropriate section will apply for those benefits related to the treatment of a specific condition.

For subscribers purchasing coverage through the Marketplace, the Marketplace will determine whether the subscriber is qualified to purchase coverage through the Marketplace and will notify Medica. Members are subject to all terms and conditions of this Policy.

Medica may arrange for various persons or entities to provide administrative services on its behalf, including claims processing and utilization management services. To ensure efficient administration of your benefits, you must cooperate with them in the performance of their responsibilities.

Benefits apply when you receive health services from network providers. Such services must be prescribed by and received from a network provider, unless otherwise indicated in this Policy. Benefits also apply to coverage for emergency services from non-network providers, including when you are traveling out of the service or network access area. Non-emergency care outside of your service or network access area is generally not covered. Follow-up care or scheduled care following an emergency must be received from a network provider to be covered as a benefit.

If a network provider refers you to a non-network provider, you must call Medica to determine if the services to be performed by the non-network provider are covered as benefits. Such referrals must be prior approved by Medica to be eligible for coverage as benefits. Medica approves referrals to non-network providers only if care is not available from network providers.

In this Policy, the words *you*, *your* and *yourself* refer to the member. The term *subscriber* refers to the person who is applying for or is issued this Policy.

B. Eligibility

To be eligible to enroll for coverage under this Policy, you must be a *subscriber* or *dependent* and meet the eligibility requirements stated below.

Subscriber eligibility

To be eligible to enroll for coverage the *subscriber* must:

1. be a Missouri resident; and
2. if you are enrolling in a Catastrophic Plan, be under the age of 30 at the start of the policy year or qualify for a hardship exemption, as determined by the Marketplace; and

3. complete an application form; and
4. not have failed to pay premium which you were obligated to pay for individual/family coverage with Medica or its affiliates for any period of coverage in the 12 months prior to your requested effective date of this Policy.

Child only eligibility

Individuals under the age of 21 are eligible to enroll as a subscriber without an adult under this Policy. Siblings of the child subscriber may be added to the child subscriber's Child Only policy. Any newborn or newly adopted child of a subscriber under the age of 21 may be covered through a separate child-only policy or this child only policy.

Dependent eligibility

To be eligible to enroll for coverage, the *dependent spouse or domestic partner* must:

1. be a Missouri resident; and
2. if enrolling in a Catastrophic Plan, be under the age of 30 or qualify for a hardship exemption, as determined by the Marketplace, when added as a dependent; and
3. not have failed to pay premium which you were obligated to pay for individual/family coverage with Medica or its affiliates for any period of coverage in the 12 months prior to the requested coverage effective date for you under this Policy.

To be eligible to enroll for coverage, a dependent child must be under the age of 26.

Extending a child's eligibility

When a dependent child is no longer eligible for coverage under this Policy, the child's eligibility continues if the child is incapable of self-sustaining employment by reason of intellectual or physical disability and is chiefly dependent upon the subscriber for support and maintenance. An illness that does not cause a child to be incapable of self-sustaining employment will not be considered a physical disability. To continue coverage for a disabled dependent child, you must provide Medica with proof of such disability and dependency within 31 days of the child reaching the dependent limiting age of 26. Beginning two years after the child reaches the dependent limiting age of 26, Medica may require annual proof of disability and dependency.

C. Enrollment

Open enrollment and effective date of coverage

For subscribers and dependents, the period of time identified each year by Medica or by the Marketplace, as applicable, for open enrollment, is the period during which subscribers and dependents may elect to enroll in coverage. An application for yourself and any dependents must be submitted to the Marketplace for coverage offered through the Marketplace, or to Medica for coverage offered directly through Medica.

If you enroll for coverage during the open enrollment period, your coverage will be effective on January 1 of the following year. Services received before the effective date of this Policy are not covered.

Medica may ask you for information to confirm your eligibility for coverage. By accepting coverage under this Policy, you agree to cooperate with our reasonable request for information.

Special enrollment and effective date of coverage

Special enrollment periods are provided to subscribers and dependents under certain circumstances. For coverage obtained through the Marketplace, eligibility for special enrollment will be as determined by the Marketplace and confirmed by Medica. If coverage was not obtained through the Marketplace, eligibility for special enrollment will be determined by Medica. Medica requires documentation to be submitted to Medica to demonstrate that there is a current special enrollment period. The effective date of coverage depends upon the type of special enrollment. Unless otherwise stated, the subscriber shall have 60 days following the date of the life event to exercise his or her right for a special enrollment.

Services received before the effective date of this Policy are not covered.

Please note, if coverage was obtained through the Marketplace, contact the Marketplace to notify them of the life event and to exercise your right for a special enrollment.

Medica may ask you for information to confirm your eligibility for coverage. By accepting coverage under this Policy, you agree to cooperate with our reasonable request for information.

The following are the life events for special enrollment opportunities, whether you enrolled through the Marketplace or not:

1. The subscriber gains a dependent through marriage, birth, adoption, placement for adoption, or child support order or other court order. If coverage was obtained through the Marketplace, you must contact the Marketplace to enroll the dependent and determine what types of plan changes can be made due to this special enrollment. In the case of marriage, at least one spouse must demonstrate having minimum essential coverage for 1 or more days during the 60 days preceding the date of marriage unless (1) the spouse is moving from a foreign country or US territory, (2) the spouse is an Indian as defined in the Indian Health Care Improvement Act, or (3) the spouse lived for 1 or more days during the 60 days leading up to the event or during the most recent preceding open enrollment in a service area where no qualified health plans were offered through the Marketplace. If not, then there is no special enrollment period for either spouse. The subscriber is permitted to either add the dependent to this Policy, or if the dependent is not eligible under this Policy, the subscriber and his or her dependents may enroll in another plan within the same metal level. If no plan is available in the same metal level, the subscriber and dependent may enroll in another plan one metal level higher or lower than the current plan. Or, at the option of the subscriber or dependent, the dependent may be enrolled separately in any available plan. In the case of birth, adoption or placement for adoption, child support or other court order, coverage begins on the date of birth, date of adoption or date of placement for adoption, respectively or the first of the month following plan selection if allowed by Medica or the Marketplace and elected by you, as applicable. In the case of marriage, coverage is generally effective on the first day of the month following plan selection in the Marketplace or enrollment with

Medica, as applicable. See *How to add dependents* below for more information. In the case of a child support order or other court order, coverage is generally effective on the date specified in the order.

2. If the subscriber or enrolled dependent loses a dependent or is no longer considered a dependent through divorce or legal separation as defined by State law in the State in which the divorce or legal separation occurs, or if the member, or his or her dependent, dies. In these instances, if the result is a loss of minimum essential coverage for the subscriber or enrolled dependent, the person who lost coverage will have a special enrollment period. Coverage is effective on the date established by Medica or the Marketplace, as applicable.
3. For subscribers currently enrolled through the Marketplace, the subscriber or dependent enrolled in the same qualified health plan is determined to be newly ineligible for an advance premium tax credit or cost-sharing reductions. Coverage is effective on the date established by Medica or the Marketplace, as applicable.
4. A qualified individual or dependent gains access to a new qualified health plan as a result of a permanent move. The qualified individual or dependent must have had minimum essential coverage for at least one day in the 60 days prior to the permanent move unless (1) the spouse is moving from a foreign country or US territory, (2) the spouse is an Indian as defined in the Indian Health Care Improvement Act, or (3) the spouse lived for 1 or more days during the 60 days leading up to the move or during the most recent preceding open enrollment in a service area where no qualified health plans were offered through the Marketplace. Moving solely for medical treatment or vacation does not qualify an individual for this special enrollment period. Coverage is effective on the date established by Medica or the Marketplace, as applicable.
5. The subscriber or dependent loses “minimum essential coverage,” as defined under federal law, is enrolled in a non-calendar year group or individual plan, or loses certain pregnancy-related coverage or coverage for an unborn child, or medically needy coverage as defined under the Social Security Act. Loss of minimum essential coverage under this paragraph does not include voluntary termination of coverage or loss due to failure to pay premiums or rescission. The subscriber or dependent has 60 days before or after the life event to exercise his or her right for a special enrollment. The date of the loss of coverage for those enrolled in a non-calendar year plan is the last day of the plan or policy year. Coverage is effective on the date established by Medica or the Marketplace, as applicable.
6. The subscriber demonstrates to Medica or the Marketplace, as applicable, that the health plan providing coverage to him or her substantially violated a material provision of its contract. Coverage is effective on the date established by Medica or the Marketplace, as applicable.
7. The subscriber demonstrates to Medica or the Marketplace, as applicable, that enrollment or non-enrollment in a health plan was unintentional, inadvertent or erroneous and the result of the error, misrepresentation or inaction of the Marketplace or the United States Department of Health and Human Services, or a non-Marketplace entity providing enrollment assistance or conducting enrollment activities. Coverage is effective on the date established by Medica or the Marketplace, as applicable.

8. For subscribers and dependents, in the event of a qualifying event under section 603 of the Employee Retirement Income Security Act of 1974, as amended. Coverage is effective on the date established by Medica or the Marketplace, as applicable.
9. For subscribers or dependents, in the event the subscriber or dependent is a victim of domestic abuse or spousal abandonment, including a dependent or unmarried victim within a household, is enrolled in minimum essential coverage and seeks to enroll in coverage separate from the perpetrator of the abuse or abandonment. Coverage is effective on the date established by Medica or the Marketplace, as applicable. The dependent of a victim of domestic abuse or spousal abandonment applying for or covered on the same application as the victim, also may enroll in coverage at the same time as the victim.
10. This special enrollment period applies if a qualified individual or dependent applies for coverage on the Marketplace during annual open enrollment or a special enrollment, and is determined by the Marketplace as potentially eligible for Medicaid or CHIP, and is later determined ineligible for Medicaid or CHIP after open enrollment ended or more than 60 days after the qualifying event. It also applies if the qualified individual or dependent applies for coverage at the State Medicaid or CHIP agency during annual open enrollment and is determined ineligible for Medicaid or CHIP after open enrollment has ended. Coverage is effective on the date established by Medica or the Marketplace, as applicable.

Following are special enrollment opportunities available only if you enrolled through the Marketplace. Coverage is effective on the date established by the Marketplace. Contact the Marketplace for information about the limitations of each special enrollment opportunity.

1. For an Indian enrolling through the Marketplace, or the dependent of an Indian that is enrolled or is enrolling through the Marketplace on the same application as the Indian, on a monthly basis as determined by the Marketplace.
2. For subscribers enrolled through the Marketplace the subscriber or dependent enrolled in the same qualified health plan is determined to be newly eligible for an advance premium tax credit or has a change in eligibility for cost-sharing reductions.
3. A qualified individual, or his or her dependent, who is enrolled in an eligible employer-sponsored plan and is determined newly eligible for advance payments of the premium tax credit.
4. For a consumer who was previously both (1) ineligible for advance premium tax credits solely because of a household income below 100 percent of the Federal Poverty Level; and (2) ineligible for Medicaid because he or she was living in a non-Medicaid expansion state during the same timeframe, who either experiences a change in household income or moves to a different state, resulting in the consumer becoming newly eligible for APTC.
5. For subscribers and dependents enrolling through the Marketplace, in the event of gaining status as a citizen, national, or lawfully present individual, or being released from incarceration, as determined by the Marketplace.

6. For subscribers and dependents enrolling through the Marketplace, the subscriber demonstrates to the Marketplace and the Marketplace determines that exceptional circumstances apply.
7. The subscriber or dependent enrolled through the Marketplace adequately demonstrates to the Marketplace that a material error related to plan benefits, service area, or premium influenced the individual's decision to purchase a plan through the Marketplace.
8. For a consumer who resolves a data matching issue following the end of an inconsistency period or has an annual household income under 100 percent of the Federal Poverty Level and did not enroll in coverage while waiting for HHS to verify that he or she meets the citizenship, national, or immigration status.

If you enrolled directly with Medica, and you or your dependent experienced a decrease in income and had minimum essential coverage for one or more days in the previous sixty days before the date of financial change, you may be eligible for a special enrollment period through the Marketplace if you are eligible for advance premium tax credits.

How to add dependents

Except for policies issued to individuals under the age of 21, coverage for new dependents may be added after the subscriber's coverage begins as described in *Open enrollment* and *Special enrollment* above. Please note with regard to births and adoptions: Medica does not automatically know of a birth or adoption or whether the subscriber would like coverage for the newborn or newly adopted dependent. For newborn, you must request, orally or in writing, that the newborn dependent be added, and payment of the required premiums and fees must be furnished within thirty one (31) days after the date of birth in order to continue coverage after the thirty one (31) day period. For newly adopted dependent, you must request that the newly adopted dependent be added. If Medica requires an application or other form of enrollment in order to continue coverage beyond the thirty-one-day period after the date of birth and you have notified Medica of the birth, either orally or in writing, Medica shall, upon notification, provide you with all forms and instructions necessary to enroll the newly born child and shall allow you an additional ten days from the date the forms and instructions are provided in which to enroll the newly born child. As a reminder, if coverage was obtained through the Marketplace, you must contact the Marketplace to enroll the dependent and determine what types of plan changes can be made due to this special enrollment. If additional premium, for the newly adopted dependent is required, Medica is entitled to all premiums due from the time of the adoption or placement for adoption until the time the covered subscriber notifies Medica of the adoption. Medica may reduce payment by the amount of premium that is past due for any health benefits for the child until any premium you owe is paid.

Notification

Unless a longer period is provided in this Policy, the subscriber must notify Medica in writing within 30 days of the effective date of any changes to home address or name, or other facts identifying you or your dependents.

D. Premiums

Your premiums must be prepaid by the subscriber from the date coverage starts. If a subscriber or dependent has enrolled through a special enrollment period retroactively, your premiums must be paid by the date established by Medica.

If you are receiving an advance premium tax credit, you will need to pay your share of the first month's premium by the date established by Medica.

Your premium may change each year as permitted by state and federal law. You will be provided at least 30 days written notice before a change in the premium.

Medica does not accept premium payment directly or indirectly from any third party including, but not limited to, any health care provider, except as stated in this paragraph. Medica will also accept premium payments from the following third parties, to the extent required by law: Ryan White HIV/AIDS Program under title XXVI of the Public Health Service Act; Indian tribes, tribal organizations or urban Indian organizations; and state and federal government programs. Premiums paid by you, the subscriber, or the third-parties listed in the prior sentence, will not be reimbursed or contributed to by or on behalf of any other third party including, but not limited to, any health care provider directly or indirectly.

E. Grace period

The grace period for the subscriber's payment of premiums will be 31 days from the date a premium payment is due. If you pay the premium at any time during this grace period, this Policy shall not be terminated. If premium is not paid by the end of the grace period, coverage will end as stated in *Ending Coverage*.

If you are receiving an advance premium tax credit, the grace period for the subscriber's payment of premiums will be 3 months from the date a premium payment is due.

- If you pay your full share of the premium at any time during this grace period, which includes any additional missed premium payments during the grace period, this Policy shall not be terminated.
- If your share of the full premium is not paid by the end of the grace period, coverage will end as stated in *Ending Coverage*. Medica will pay benefits only for the first month of the grace period.
- For example, if you fail to make the premium payment for March, April and May, Medica will pay benefits only for services you receive in March, unless you pay your full share of all the premiums for March, April and May by the end of May. Be aware that benefits will not be paid after the first month of the 3 month grace period.

If the person obligated to pay premiums under this Policy has not paid the past due premiums by the end of the grace period, and Medica has provided coverage during the grace period, then that person may not be allowed to enroll in any other Medica (or its affiliates) individual or family policies for up to twelve months following the beginning of the grace period. If the subscriber wants to obtain Medica individual or family coverage before the end of the twelve-month period, the subscriber may need to pay the outstanding premium owed under the prior Medica policy consistent under Medica's process.

F. Changes to this Policy

The coverage provided under this Policy may change each year as permitted or required in compliance with federal or state regulatory requirements, or to ensure that this Policy maintains the actuarial value for the designated metal levels as defined in federal law. Any provision of this Policy which, on its effective date, is in conflict with the law of the federal government or this state is hereby amended to conform to the minimum requirements of such law.

G. Benefits

What you must do to receive benefits

Each time you receive health services, you must:

1. Confirm with Medica that your provider is a network provider with your Medica plan to be eligible for benefits. In a Preferred Primary Care plan you will receive the highest level of primary care benefits when you receive services from Preferred Primary Care network providers. If you want to receive the highest level of primary care benefits, confirm with Medica that your provider is a Preferred Primary Care network provider;
2. Identify yourself as a Medica member; and
3. Present your Medica identification card. Having and using a Medica identification card does not guarantee coverage.

If your provider asks for your health care identification card and you do not identify yourself as a Medica member within 180 days of the date of service, you may be responsible for paying the cost of the service you received.

It is your responsibility to alert Medica regarding any discounts, coupons, rebates, or financial arrangements between you and a provider or manufacturer for health care items or services, prescribed drugs and/or devices. Discounts, coupons, rebates, or similar reimbursement provided to you by providers or manufacturers will not satisfy your out-of-pocket cost sharing responsibilities. Such amounts will not accumulate toward your deductible and out-of-pocket maximum. Call Customer Service at the number on the back of your Medica ID card.

Benefits

To see which providers are in your plan's network, check the online search tool on **medicamember.com** or call Customer Service at the number on the back of your Medica ID card.

There are two tiers of network primary care providers. Your benefit plan may have different benefits based on the provider tier. If the Benefit Chart section of this Policy describes a Preferred Primary Care network benefit, this benefit applies when services are provided by a primary care network provider with a preferred status. If Medica determines there is no preferred primary care provider available to you, Medica may approve the primary care

service at the Preferred Primary Care network benefit when you see a network primary care provider.

If the Benefit Chart section of this Policy describes a primary care network benefit, this benefit applies when services are provided by a primary care network provider without a preferred status.

Medica will cover health services and supplies as described in this Policy only when care is received from the following:

1. A network provider;
2. A non-network provider to whom you have been specifically directed by a network provider and are authorized by Medica; and
3. A non-network provider when no in-network care is available within your service or network access area and are authorized by Medica.

If there is no network provider and no non-network provider available within your service or network access area, Medica may require you to see a provider that we have negotiated a reduced fee with if that provider is closer to your residence than a requested non-network provider.

Prior authorization may also be required from Medica for certain benefits even if a provider has directed or recommended that you receive the services or supplies. This Policy fully defines your benefits and describes procedures you must follow to obtain benefits.

Decisions about coverage are based on appropriateness of care and service to the member. Medica does not reward providers for denying care, nor does Medica encourage inappropriate utilization of services.

Medica will cover routine patient costs in connection with a qualified individual's participation in an approved clinical trial at the applicable benefit level. Routine patient costs are items and services that would be covered benefits even when not provided in connection with a clinical trial, including services that are both reasonable and medically necessary needed to administer the drug or device under evaluation in the clinical trial. Routine patient costs also include costs incurred for drugs and devices that have been approved for sale by the Food and Drug Administration (FDA), regardless of whether they have been approved by the FDA for use in treating the qualified individual's particular condition, including coverage for reasonable and medically necessary services needed to administer the drug or use the device under evaluation in the approved clinical trial. Routine patient costs do not include the investigative or experimental item, device or service; items or services provided solely to satisfy data collection and analysis needs and not used in clinical management; or items and services customarily provided by the research sponsors free of charge for any enrollee in the trial, such as research physician and/or clinician time.

Medica will cover medically necessary early intervention services for children provided by licensed and credentialed occupational therapists, physical therapists, speech-language pathologists, and clinical social workers working with children under age three with an identified developmental disability and/or delay, including coverage for medically necessary assistive technology devices. The providing therapist must receive a referral from the child's primary care provider.

There is coverage under this Policy for orally-administered anticancer medication subject to the same terms and conditions as intravenously administered or injected anticancer medication.

Non-network providers

Emergency services received from non-network providers are covered benefits. To be eligible for coverage from non-network providers, services must be due to an emergency, as defined in Definitions.

Up to two mental health sessions per calendar year for mental health diagnosis or assessment from non-network providers are covered benefits.

Additionally, under certain circumstances Medica will authorize your obtaining services from a non-network provider within the United States. Such authorizations are generally provided only in situations where the requested services are not available from network providers. Medica will authorize services received from non-network providers only if in-network care is not available in your service or network access area and may require a referral from an in-network provider. If there is no network provider and no non-network provider available within your service or network access area, Medica may require you to see a provider that we have negotiated a reduced fee with if that provider is closer to your residence than a requested non-network provider.

When you access care from non-network providers, you will be responsible for filing claims in order to be reimbursed for covered benefits. For information on submitting claims, refer to *Submitting a claim*.

Exclusions

Certain health services are not covered. Read this Policy for a detailed explanation of all exclusions.

H. Providers

Enrolling in a Medica plan does not guarantee that a particular provider (in the Medica network provider directory) will remain a Preferred Primary Care network provider or a network primary care provider or provide you with health services. When a provider no longer participates with Medica, you must choose to receive health services from Preferred Primary Care network providers to continue to be eligible for Preferred Primary Care benefits or choose to receive health services from network primary care providers to continue to be eligible for primary care benefits.

You must verify that your provider is a network provider each time you receive health services. Please note: The hospital network for medical services and mental health and substance use disorder services may not be the same. Call your plan's designated mental health and substance use disorder provider at the number on the back of your Medica ID card.

Network providers

Network providers are paid using various types of contractual arrangements, which are intended to promote the delivery of health care in a cost efficient and effective manner.

These arrangements are not intended to affect your access to health care. These payment methods may include:

1. A fee-for-service method, such as per service or percentage of charges;
2. A per episode arrangement, such as an amount per day, per stay, per case or per period of illness; or
3. A risk-sharing/value-based arrangement.

The methods by which specific network providers are paid may change from time to time. Methods also vary by network provider. The primary method of payment is fee-for-service.

Fee-for-service payment means that Medica pays the network provider a fee for each service provided. If the payment is per episode, the network provider's payment is determined according to a set fee schedule. The amount the network provider receives is the lesser of the fee schedule or what the network provider would have otherwise billed. If the payment is percentage of charges, the network provider's payment is a set percentage of the provider's billed charge. The amount paid to the network provider, less any applicable copayment, coinsurance or deductible, is considered to be payment in full.

Medica also has risk-sharing/value-based contract arrangements with a number of providers. These contracts include various quality and efficiency measures designed to encourage high quality and efficient total care for members. Such arrangements may involve claims withhold and gain-sharing or risk sharing arrangements between Medica and such providers. Amounts paid or returned under these arrangements are not considered when determining the amounts you must pay for health services under this Policy.

Non-network providers

When a non-emergency service from a non-network provider is covered, the non-network provider is paid a fee for each covered service that is provided.

When an emergency service from a non-network provider is covered under this Policy, the non-network provider is paid the in-network benefit level. The payment for the emergency benefit is calculated on the non-network provider reimbursement amount. The non-network provider reimbursement amount is at least the greatest of the following three for that same service, consistent with our emergency standard reimbursement policy:

- a. The median negotiated amount with network providers;
- b. The amount for the emergency service calculated using the same method the plan generally uses to determine payments for out-of-network services; and
- c. The amount that would be paid under Medicare (Part A or Part B of title XVIII of the Social Security Act).

The non-network provider reimbursement amount may be less than the charges billed by the non-network provider. **If this happens, you are responsible for paying the difference, in addition to any applicable coinsurance and deductible amount. Charges in excess of the non-network provider reimbursement amount do not accumulate to your deductible or out-of-pocket maximum.**

I. Submitting a claim

Claims for benefits from network providers

If you receive a bill for any benefit from a network provider, you may submit the claim following the procedures described below, under *Claims for benefits from non-network providers*, or call Customer Service at the number on the back of your Medica ID card.

Network providers are required to submit claims within 180 days from when you receive a service. If your provider asks for your health care identification card and you do not identify yourself as a Medica member within 180 days of the date of service, you may be responsible for paying the cost of the service you received.

Claims for benefits from non-network providers

When you receive services from non-network providers, you will be responsible for filing claims in order to be reimbursed for covered benefits.

Claim forms can be found at **medicamember.com** or you may request claim forms by calling Customer Service at the number on the back of your Medica ID card or you may submit an itemized statement without the claim form to Medica. If the claim forms are not sent to you within 15 days, the itemized statement may be considered as proof of claim, the written proof covering the occurrence, the character and the extent of the loss for which claim is made. You should retain copies of all claim forms and correspondence for your records.

Generally, Medica does not accept assignment of benefits to non-network providers.

You must submit the claim in English along with a Medica claim form to Medica no later than 365 days after receiving benefits. Your Medica member number must be on the claim.

Mail to the address identified on the back of your identification card.

Medica will notify you of payment, denial or the need for additional information to process your claim within 30 days of receipt of the claim.

If your claim does not contain all the information Medica needs to make a determination, Medica may request additional information. Please provide the additional information as soon as reasonably possible. Medica will notify you of its decision within 10 days of receiving the additional information.

Claims for emergency services provided outside the United States

Claims for emergency services rendered in a foreign country will require the following additional documentation:

1. Claims submitted in English with the currency exchange rate for the date health services were received.
2. Itemization of the bill or claim.
3. The related medical records (submitted in English).
4. Proof of your payment of the claim.
5. A complete copy of your passport and airline ticket.
6. Such other documentation as Medica may request.

For emergency services rendered in a foreign country, Medica will pay you directly.

Medica will not reimburse you for costs associated with translation of medical records or claims.

Time limits

If you have a grievance or disagree with a decision by Medica, you may follow the grievance procedure outlined in *Grievances* or you may initiate legal action at any point.

No action at law or in equity shall be brought to recover on this policy prior to the expiration of sixty days after written proof of loss has been furnished in accordance with the requirements of this policy. No such action shall be brought after the expiration of three years after the time written proof of loss is required to be furnished.

J. Prior Authorization, Concurrent Review and Referrals

Note: Prior authorization (approval in advance) is a clinical review that services are medically necessary. Receiving prior authorization is not a guarantee of payment. Benefits will be determined once a claim is received and will be based upon, among other things, your eligibility and the terms and conditions of this Policy applicable on the date you receive services.

Prior Authorization

Certain health services are covered only upon referral. All referrals to non-network providers and certain types of network providers require prior authorization by Medica. Prior authorization from Medica is required before you receive certain services or supplies even if a provider has directed or recommended that you receive the services or supplies in order to determine whether a particular service or supply is medically necessary and a benefit. Medica uses written procedures and criteria when reviewing your request for prior authorization. To determine whether a certain service or supply requires prior authorization, please call Customer Service at the number on the back of your Medica ID card.

Your attending provider, you or someone on your behalf may contact Medica to request prior authorization. Your network provider will contact Medica to request prior authorization for a service or supply. You must contact Medica to request prior authorization for services or supplies received from a non-network provider. If a network provider fails to request prior authorization after you have consulted with them about services requiring prior authorization, you are not subject to a penalty for failure to obtain prior authorization.

Emergency services do not require prior authorization.

You do not require prior authorization in order to obtain access to obstetrical or gynecological care from a network provider who specializes in obstetrics or gynecology. However, certain of the specific services provided by that network provider may require prior authorization, as described further in this Policy.

Some of the services that may require prior authorization from Medica include:

1. Reconstructive or restorative surgery procedures;

2. Treatment of a diagnosed temporomandibular joint (TMJ) disorder or craniomandibular disorder;
3. Solid organ and bone marrow transplant services – this prior authorization must be obtained before the transplant workup is initiated;
4. Treatment at a designated facility for complex health conditions;
5. Home health care services;
6. Durable medical equipment;
7. Outpatient surgical procedures;
8. Certain genetic tests;
9. Certain drugs, biologics and biosimilars;
10. Inpatient care, including mental health and substance use disorders, skilled nursing facility services, long term acute hospital (LTAH) and acute inpatient rehab (AIR);
11. Certain outpatient mental health and substance use disorder services;
12. Certain imaging services;
13. Certain professionally administered drugs;
14. Non-emergency licensed air ambulance transportation; and
15. Benefits for services from non-network providers, with the exception of emergency services.

Certain biologics, biosimilars and professionally administered drugs may be subject to step therapy. In certain cases, it is possible to get an exception to step therapy requirements. To obtain more information about the step therapy exception process call Customer Service at the number on the back of your Medica ID card.

Pregnancy/maternity care services received from a network provider do not require prior authorization or a referral and will be covered.

Please note: This is not an all-inclusive list of all services and supplies that may require prior authorization.

When you, someone on your behalf or your attending provider calls, the following information may be required:

1. Name and telephone number of the provider who is making the request;
2. Name, telephone number, address and type of specialty of the provider to whom you are being referred, if applicable;
3. Services being requested and the date those services are to be rendered (if scheduled);
4. Specific information related to your condition (for example, medical records or a letter of medical necessity from your provider);
5. Other applicable member information (i.e., Medica member number).

Medica will review your request for prior authorization and make a determination within thirty-six hours (which shall include one working day) after the date your request was

received, provided all information necessary to make a decision has been given to Medica. Medica shall notify your attending provider by telephone or electronically within twenty-four hours of making the determination. If Medica approves your request for a prior authorization, Medica will notify you and your attending provider via written or electronic confirmation within two working days of the determination. If Medica does not approve the request for prior authorization, Medica will notify you and your attending provider via written or electronic confirmation within one working day of making the determination.

If the timeframe in the preceding paragraph would result in Medica responding more than 72 hours from your initial request, Medica will respond within a time period not exceeding 72 hours from the time of the initial request if 1) your attending provider believes that an expedited review is warranted, or 2) Medica concludes that a delay could seriously jeopardize your life, health or ability to regain maximum function, or 3) you could be subject to severe pain that cannot be adequately managed without the care or treatment you are requesting.

If Medica denies the request for prior authorization, your attending provider may request Medica reconsider its denial, or you have the right to an appeal or an expedited appeal of Medica's decision as described in *Grievances*. Your attending provider may request, on your behalf, a reconsideration of Medica's determination to deny the prior authorization request. Such reconsideration shall occur within one working day of the receipt of the request from your attending provider, and shall be conducted between your attending provider rendering the service and the reviewer who denied the prior authorization request (or a clinical peer if the same reviewer is not available within one working day).

If Medica does not approve the request or reconsideration for prior authorization, you have the right to an appeal or an expedited appeal of Medica's decision as described in *Grievances*.

Concurrent Review

Under certain circumstances, Medica may perform concurrent review to determine whether services continue to be medically necessary. Medica will inform you and your attending provider within twenty-four hours of receiving the request with the necessary information. Medica will provide confirmation to you and your attending provider via written or electronic confirmation within one working day of the initial notification.

If Medica denies an extended stay or additional services, your attending provider may request Medica reconsider its denial, or you have the right to an appeal of Medica's decision as described in *Grievances*. Your attending provider may request, on your behalf, a reconsideration of Medica's determination to deny the request to extend the stay or for additional services. Such reconsideration shall occur within one working day of the receipt of the request from your attending provider, and shall be conducted between your attending provider rendering the service and the reviewer who denied the concurrent (or a clinical peer if the same reviewer is not available within one working day). If Medica does not approve continued coverage, you or your attending provider may appeal Medica's initial decision (see *Grievances*).

Referrals to non-network providers

It is to your advantage to seek Medica's authorization for referrals to non-network providers *before* you receive services. Medica can then tell you what your benefits will be for the

services you may receive. Medica will authorize referrals for services from non-network providers only if in-network care is not available in your service or network access area. The referral must be from an in-network provider. If there is no network provider and no non-network provider available within your service or network access area, Medica may require you to see a provider that we have negotiated a reduced fee with if that provider is closer to your residence than a requested non-network provider.

If you want to apply for a standing referral to a non-network provider, contact Medica for more information. A standing referral is a referral issued by a network provider and authorized by Medica for conditions that require ongoing services from a specialist provider.

Standing referrals will only be covered for the period of time appropriate to your medical condition. A standing referral may be granted if Medica determines a standing referral clinically appropriate.

Referrals and standing referrals will not be covered to accommodate personal preferences, family convenience, or other non-medical reasons. Referrals will also not be covered for care that has already been provided.

If your request for a standing referral is denied, you have the right to appeal this decision as described in *Grievances*.

What you must do

1. Request a referral or standing referral from a network provider to receive medically necessary services from a non-network provider. The referral will be in writing and will:
 - a. Indicate the time period during which services must be received; and
 - b. Specify the service(s) to be provided; and
 - c. Direct you to the non-network provider selected by your network provider.
2. Seek prior authorization from Medica by calling the number on the back of your Medica ID card. Medica does not guarantee coverage of services that are received before you obtain prior authorization from Medica.
3. If prior authorization has been obtained from Medica, pay the same amount you would have paid if the services had been received from a network provider.
4. Pay any charges not authorized for coverage by Medica.

What Medica will do

1. May require that you see another network provider selected by Medica before a determination by Medica that a referral to a non-network provider is medically necessary.
2. May require that you obtain a referral or standing referral from a network provider to a non-network provider practicing in the same or similar specialty.
3. Provide coverage for health services that are:
 - a. Otherwise eligible for coverage under this Policy;
 - b. Recommended by a network physician; and

- c. Determined by Medica that care is not available from a network provider. If there is no network provider and no non-network provider available within your service or network access area, Medica may require you to see a provider that we have negotiated a reduced fee with if that provider is closer to your residence than a requested non-network provider.
4. Review your request for prior authorization and respond according to the procedures and timelines for prior authorizations stated earlier in this Policy.

K. Continuity of care

To request continuity of care or if you have questions about how this may apply to you, call Customer Service at the number on the back of your Medica ID card.

If you are currently in an active course of treatment with a treating provider, you have a right to continuity of care. If the contract between Medica and your treating provider terminates without cause, you may be eligible to continue care with that provider. Continuity of care only applies if you are in an active course of treatment with the provider at the time the provider's contract is terminated. This does not apply when the provider's contract is terminated for cause.

Upon request, Medica will authorize continuity of care as described above for the following conditions:

1. An ongoing course of treatment for a life-threatening condition;
2. An ongoing course of treatment for a serious acute condition, such as chemotherapy;
3. Pregnancy in the second or third trimesters, through the postpartum period; or
4. An ongoing course of treatment for a health condition for which a treating physician or health care provider attests that discontinuing care by that physician or health care provider would worsen the condition or interfere with anticipated outcomes.

Continuity of care, as described above, will continue until the active course of treatment is complete, or 90 days, whichever is shorter. Authorization to continue to receive services from your current primary care provider, specialist or hospital may extend to the remainder of your life if a physician certifies that your life expectancy is 180 days or less.

Medica may require medical records or other supporting documentation from your provider to review your request, and will consider each request on a case-by-case basis. If Medica authorizes your request to continue care with your current provider, Medica will explain how continuity of care will be provided. After that time, your services or treatment will need to be transitioned to a network provider to continue to be eligible for benefits. If your request is denied, Medica will explain the criteria used to make its decision. You may appeal this decision.

If your provider agrees to comply with Medica's prior authorization requirements, provides Medica with all necessary medical information related to your care, and accepts as payment in full the lesser of Medica's network provider reimbursement or the provider's customary charge for the service, then the provider will not be permitted to bill you for the amount in

excess of your deductible and coinsurance or copay described in the Benefit Chart section of this Policy.

Coverage will not be provided for services or treatments that are not otherwise covered under this Policy.

If Medica terminates your current provider's contract for cause, Medica will inform you of the change and how your care will be transferred to another network provider.

L. Harmful use of medical services

If it is determined that you are receiving health services or prescription drugs in a quantity or manner that may harm your health, Medica will notify you that you have 30 days to choose one network physician, hospital and pharmacy to be your coordinating health care providers.

If you do not choose your coordinating health care providers within 30 days, Medica will choose for you.

Failure to receive services from or through your coordinating health care providers will result in a denial of coverage.

You must obtain a referral from your coordinating health care provider if your condition requires care or treatment from a provider other than your coordinating health care provider.

Medica will send you specific information about:

1. How to obtain approval for benefits not available from your coordinating health care providers; and
2. How to obtain emergency care; and
3. When these restrictions end.

M. Medica's Right of Recovery and Reimbursement

In the event you or another individual covered by this Policy sustains injury or illness for which a third party, individual, corporation, insurer or other entity or person may be legally responsible for payment of medical expenses related to your illness or injury, you agree, to the extent permitted by applicable law, as follows:

1. To reimburse out of any proceeds recovered from the third party, through settlement, judgment or otherwise, all benefits provided and paid by Medica with respect to the injury or illness for which the party may be legally responsible.
2. Medica shall, to the extent permitted by law, have a lien on any proceeds recovered from the third party, through settlement, judgment or otherwise, in the amount of the benefits paid or payable with respect to the injury or illness for which the party may be legally responsible.

II. Out-of-Pocket Expenses

You are responsible for paying the cost of a service that is not medically necessary or is not a covered benefit even if the following occurs:

1. A provider performs, prescribes or recommends the service; or
2. The service is the only treatment available; or
3. You request and receive the service even though your provider does not recommend it. (Your network provider is required to inform you or, in some instances, provide a waiver for you to sign.)

You are responsible for paying the charges incurred when you miss or cancel an appointment.

Please see the Benefit Chart section of this Policy for specific information about your benefits and coverage levels. To verify coverage before receiving a particular service or supply, call Customer Service at the number on the back of your Medica ID card.

A. Cost sharing: copayments, coinsurance and deductibles

For benefits, you must pay the following:

1. Any applicable copayment, coinsurance and deductible as described in the Benefit Chart section of this Policy.

You must pay an annual deductible. The time period used to determine how much of your deductible you have satisfied is a calendar year.

Please note that amounts reimbursed or paid by a provider or manufacturer, including manufacturer coupons, rebates, coupon cards, debit cards or other forms of reimbursement or payment on your behalf for a product or service, will not apply toward your deductible.

2. Any charge that exceeds the non-network provider reimbursement amount for emergency services from a non-network provider. **If the amount billed by the non-network provider is greater than the non-network provider reimbursement amount, the non-network provider will likely bill you for the difference. This difference may be substantial, and it is in addition to any copayment, coinsurance or deductible amount you may be responsible for according to the terms described in this Policy.**

To inquire about the non-network provider reimbursement amount for a particular procedure, call Customer Service at the number on the back of your Medica ID card. When you call, you will need to provide the following:

- The CPT (Current Procedural Terminology) code for the procedure (ask your non-network provider for this); and
- The name and location of the non-network provider.

Customer Service will provide you with an estimate of the non-network provider reimbursement amount based on the information provided at the time of your

inquiry. The *actual amount paid* will be based on the information received at the time the claim is submitted and subject to all applicable benefit provisions, exclusions and limitations, including but not limited to coinsurance and deductible.

3. Any charge that is not covered under this Policy.

Cost sharing reductions

Cost-sharing is a combination of coinsurance, copayments and your deductible.

If the Marketplace determines you are eligible for a cost-sharing reduction, you will be offered one of three silver cost-sharing variations based on your household income. This will lower your cost-sharing for benefits. If you move between different cost-sharing variations because of a redetermination of your eligibility for a specific cost-sharing variation, the time period does not start again when you move to a new cost-sharing variation, including a standard silver plan. Because different variations may have different deductibles, if you move to a plan with a higher deductible because of a change in your income, you will have to meet the new higher deductible, but the amounts you paid already will be counted toward the new higher deductible. You might also move to a plan with a lower deductible based on a change in income, if you have already satisfied the high deductible, it will count toward your new deductible and out-of-pocket maximums, but you will not receive a rebate of the excess you have paid over your new deductible.

In the event a cost-sharing variation plan is no longer available through the Marketplace as outlined in the *Ending Coverage* section, and you move to the standard cost-sharing version of that same plan, the time period for determining your cost-sharing does not start again for that calendar year.

For example, if you satisfy a \$500 deductible and pay \$100 in co-payments in one plan variation, then move to a different plan variation with a \$750 deductible as a result of a change in eligibility, the \$500 would apply towards the new deductible and you would need to satisfy the remaining \$250 of the new deductible.

American Indians and Alaska Natives

If the Marketplace determines you are eligible for a zero cost-sharing variation, you will be offered a zero cost-sharing variation of the plan you have chosen. This will eliminate your cost-sharing for benefits. An individual that the Marketplace determines is an American Indian or Alaska Native will have no cost sharing required on benefits received from Indian Health Services, an Indian Tribe, Tribal Organization, or Urban Indian Organization (each as defined in 25 U.S.C. 1603), or through a referral under contract health services, as contract health services are defined and provided pursuant to 42 C.F. R. Subpart C and any other guidance issued pursuant to that section.

B. Out-of-pocket maximum

The out-of-pocket maximum is an accumulation of the:

- copayments
- coinsurance, and

- deductible

paid for benefits received during a calendar year. Unless otherwise specified, you will *not* be required to pay more than the out-of-pocket maximum for benefits received during a calendar year. Any amount or charge *not* covered, including charges for services not eligible for coverage, is *not* applicable toward the out-of-pocket maximum.

Please note that amounts reimbursed or paid by a provider or manufacturer, including manufacturer coupons, rebates, coupon cards, debit cards or other forms of reimbursement or payment on your behalf for a product or service, will not apply toward your out-of-pocket maximum.

After the out-of-pocket maximum has been met, all other covered benefits received during the rest of the calendar year will be covered at 100%, except for any charge not covered by Medica. The out-of-pocket maximum is described in the Out-of-Pocket Expenses table in the Benefit Chart section of this Policy.

Medica refunds the amount over the out-of-pocket maximum during any calendar year when proof of excess copayments, coinsurance and deductible is received and verified by Medica.

III. Covered Benefits

Prior authorization (approval in advance) is required before you receive certain services listed below. To determine if Medica requires prior authorization for a particular service or treatment, please call Medica Customer Service at the number on the back of your Medica ID card. Please see *Prior authorization in Referrals and Prior Authorization* for more information about prior authorization requirements and processes.

A. Ambulance

Medica covers ambulance services as described in the Benefit Chart section of this Policy.

Not covered:

1. Ambulance transportation to another hospital when care for your condition is available at the network hospital where you were first admitted.
2. Non-emergency ambulance transportation services (except as described in the Benefit Chart section of this Policy).

B. Anesthesia

Medica covers anesthesia services as described in the Benefit Chart section of this Policy.

Not covered:

Anesthesia services provided by a non-network provider.

C. Autism Spectrum Disorders

Diagnosis of autism spectrum disorders is covered as described in the Benefit Chart section of this Policy.

Medica covers services to treat autism spectrum disorders as described in the Benefit Chart section of this Policy. Coverage for treatment for autism spectrum disorders is limited to medically necessary treatment that is ordered by your treating licensed physician or licensed psychologist, pursuant to the powers granted under such licensed physician's or licensed psychologist's license, in accordance with a treatment plan. Coverage for applied behavioral analysis shall include payments or reimbursements for services provided by a line therapist under the supervision of an autism service provider or a board-certified behavior analyst or behavior analyst if such services provided by the line therapist are included in the treatment plan and are deemed medically necessary.

If you need autism spectrum disorder diagnosis or treatment, Medica will refer you to one of its network autism spectrum disorder providers. Call Customer Service at the number on the back of your Medica ID card.

The following definitions only apply to the Autism Spectrum Disorder sections of this Policy:

Applied behavior analysis. The design, implementation, and evaluation of environmental modifications, using behavioral stimuli and consequences, to produce socially significant improvement in human behavior, including the use of direct observation, measurement, and functional analysis of the relationships between environment and behavior.

Autism service provider. Any person, entity, or group that provides diagnostic or treatment services for autism spectrum disorders who is licensed or certified by the state of Missouri; or any person who is licensed under chapter 337 as a board-certified behavior analyst by the behavior analyst certification board or licensed under chapter 337 as an assistant board-certified behavior analyst.

Autism spectrum disorders. A neurobiological disorder, an illness of the nervous system, which includes Autistic Disorder, Asperger's Disorder, Pervasive Developmental Disorder Not Otherwise Specified, Rett's Disorder, and Childhood Disintegrative Disorder, as defined in the most recent edition of the Diagnostic and Statistical Manual of Mental Disorders of the American Psychiatric Association.

Habilitative or rehabilitative care. Professional, counseling, and guidance services and treatment programs, including applied behavior analysis for those diagnosed with autism spectrum disorder, that are necessary to develop the functioning of an individual.

Line therapist. An individual who provides supervision of an individual diagnosed with an autism diagnosis and other neurodevelopmental disorders pursuant to the prescribed treatment plan, and implements specific behavioral interventions as outlined in the behavior plan under the direct supervision of a licensed behavior analyst.

Psychiatric care. Direct or consultative services provided by a psychiatrist licensed in the state in which the psychiatrist practices.

Psychological care. Direct or consultative services provided by a psychologist licensed in the state in which the psychologist practices.

Therapeutic care. Services provided by licensed speech therapists, occupational therapists, or physical therapists.

Not covered:

1. Services for autism spectrum disorders that are not described in the current edition of the Diagnostic and Statistical Manual of Mental Disorders.
2. Services for a condition when there is no reasonable expectation that the condition will improve, except if the treatment services are habilitative in nature.
3. Services, care, or treatment that is not medically necessary.
4. Animal-based therapy including hippotherapy, auditory integration training, chelation therapy, child care fees, cranial sacral therapy, custodial or respite care, hyperbaric oxygen therapy, and special diets or supplements for treatment of autism spectrum disorder.
5. Therapy, treatment, or services while a member is residing in a residential treatment center or receiving inpatient treatment.
6. Travel time for providers of autism spectrum disorder services.

7. Applied behavioral analysis to the extent Medica is billed for such services through the children's early intervention program or any school district.

D. Chiropractic

Medica covers chiropractic services to diagnose and to treat conditions related to muscles, skeleton and nerves of the body. This includes spinal manipulations, manual muscle stimulations or other conjunctive or manipulative therapies.

Not covered:

1. Chiropractic manipulation services provided by a non-network provider.
2. Massage therapy which is performed in conjunction with other treatment by a chiropractor as part of a prescribed treatment plan that is billed separately.

E. Diabetes Management and Supplies

Medica covers (for gestational, type I or type II diabetes):

- diabetes self-management training and education, including medical nutrition therapy, received from a provider in a program consistent with national educational standards (as established by the American Diabetes Association);
- diabetic equipment and supplies, including blood glucose meters when received from a network pharmacy;
- insulin pumps and their related supplies when received from a network durable medical equipment provider; and
- routine foot care if part of treatment for diabetes.

Not covered:

Diabetes management and supplies received from or provided by a non-network provider.

F. Diagnostic Imaging

Medica covers diagnostic imaging services such x-rays and other imaging services when:

- ordered by a provider, and
- provided in a clinic or outpatient hospital facility.

Not covered:

Diagnostic imaging services provided by a non-network provider, except as described in *Emergency Room*.

G. Durable Medical Equipment, Prosthetics and Miscellaneous Medical Supplies

Medica covers only a limited selection of durable medical equipment and certain related supplies, and hearing aids that meet the criteria established by Medica. Some items ordered by your physician, even if medically necessary, may not be covered. The list of eligible durable medical equipment and certain related supplies is periodically reviewed and modified by Medica. To request a list of Medica's eligible durable medical equipment and certain related supplies, call Customer Service at the number on the back of your Medica ID card.

Medica determines if durable medical equipment will be purchased or rented. Medica's approval of rental of durable medical equipment is limited to a specific period of time. To request approval for an extension of the rental period, call Customer Service at the number on the back of your Medica ID card.

Quantity limits may apply to durable medical equipment, prosthetics and medical supplies.

If the durable medical equipment or prosthetic device or hearing aid is covered by Medica, but the model you select is not Medica's standard model, you will be responsible for the cost difference. A standard model is defined durable medical equipment that meets the minimum specifications prescribed for your needs.

Diabetic equipment and supplies, other than insulin pumps and the equipment and supplies related to insulin pumps, are covered under the *Prescription Drug* section of this Policy.

Benefits apply to durable medical equipment and certain related supplies and prosthetic services prescribed by a physician and received from a network durable medical equipment provider, and hearing aids as described in the Benefit Chart section of this Policy when prescribed by a network provider.

To request a list of network durable medical equipment providers, call Customer Service at the number on the back of your Medica ID card.

Not covered:

1. Durable medical equipment and supplies, prosthetics, appliances and hearing aids provided by a non-network provider.
2. Durable medical equipment and supplies, prosthetics, appliances and hearing aids not on the Medica eligible list.
3. Charges in excess of the Medica standard model of durable medical equipment, prosthetics or hearing aids.
4. Repair, replacement or revision of properly functioning durable medical equipment, prosthetics and hearing aids, including, but not limited to, due to loss, damage or theft.
5. Duplicate durable medical equipment, prosthetics and hearing aids, including repair, replacement or revision of duplicate items.
6. Disposable supplies and appliances, except as described in this Policy.

H. Emergency Room

Medica covers emergency room services, as described in the Benefit Chart section of this Policy, where a prudent layperson would believe that a condition or symptom requires immediate treatment to:

1. Preserve your life; or
2. Prevent serious impairment to your bodily functions, organs or parts; or
3. Prevent placing your physical or mental health in serious jeopardy.

Emergency services from non-network providers will be covered benefits. To be eligible for coverage from non-network providers, services must be due to an emergency or an emergency medical condition, as defined in *Definitions*.

You must notify Medica of emergency inpatient services as soon as reasonably possible after receiving inpatient services. Call Customer Service at the number on the back of your Medica ID card.

If you are confined in a non-network facility as a result of an emergency, you will be eligible for benefits until your attending physician agrees it is safe to transfer you to a network facility.

If the health services that you require do not meet the definition of emergency, you should refer to the most specific section of this Policy for a description of your benefits.

To be eligible for benefits after an emergency, follow-up care or scheduled care must be received from a network provider.

For information on submitting claims for emergency services received in a foreign country, refer to *Submitting a claim*.

Not covered:

1. Non-emergency care from non-network providers except as described in this Policy.
2. Unauthorized continued inpatient services in a non-network facility once the attending physician agrees it is safe to transfer you to a network facility.
3. Follow-up care or scheduled care from a non-network provider except as described in this Policy.
4. Transfers and admissions to network hospitals solely at the convenience of the member.

I. Genetic Counseling and Testing

Medica covers genetic counseling, whether pre-test or post-test, and whether occurring in an office, clinic or telephonically. Medica also covers genetic testing when the test will directly affect treatment decisions or frequency of screening for a disease, or when results of the test will affect reproductive choices. Please see the Benefit Chart section of this Policy for more information.

Not covered:

1. Genetic counseling and testing services provided by a non-network provider.
2. Genetic testing when performed in the absence of symptoms or high risk factors for a heritable disease.
3. Genetic testing when knowledge of genetic status will not affect treatment decisions, frequency of screening for the disease or reproductive choices.
4. Genetic testing that has been performed in response to direct to consumer marketing and not under the direction of your physician.

J. Home Health Care

Medica covers skilled care in your place of residence for members that are homebound. Skilled services must be ordered by a physician who has conducted a face-to-face assessment per Medicare guidelines. (Exception: You are not required to be homebound to be eligible for home infusion therapy or services received in your home from a physician.)

Covered home health aide services must be ordered by a physician and related to the active and specific treatment of the covered member. Services and care must be provided by a home health aide that is supervised by a skilled service provider in accordance with Medicare guidelines.

To be considered homebound, a doctor must certify that you are homebound. To be homebound means the following:

- Leaving your home is not recommended because of your condition.
- Your condition keeps you from leaving your home without help (such as using a wheelchair or walker, needing special transportation or getting help from another person).
- Leaving home takes a considerable and taxing effort.

A person may leave home for a medical treatment or short, infrequent absences for non-medical reasons, such as attending religious services. You can still get home health care if you attend adult day care, but you would get the home care services in your home. A dependent child may still be considered homebound when attending school where life support specialized equipment and help are available.

Please note: Your place of residence is where you make your home. This may be your own dwelling, a relative's home, an apartment complex that provides assisted living services or some other type of institution. However, an institution will not be considered your home if it is a hospital or skilled nursing facility.

Benefits in the Benefit Chart section of this Policy apply to covered home health care services received from a network home health care agency. Please see the Benefit Chart for more information.

Not covered:

1. Home health care provided by a non-network provider.
2. Companion, homemaker and personal care services.

3. Services provided by a member of your family.
4. Custodial care and other non-skilled services.
5. Physical, occupational or speech therapy provided in your home for convenience.
6. Skilled nursing care or skilled physical or occupational therapy provided in your home when you are not homebound.
7. Speech therapy provided in your home when you are not homebound.
8. Services primarily educational in nature.
9. Vocational and job rehabilitation.
10. Recreational therapy.
11. Self-care and self-help training (non-medical).
12. Health clubs.
13. Disposable supplies and appliances, except as described in this Policy.
14. Physical, occupational or speech therapy services when there is no reasonable expectation of improvement.
15. Voice training.
16. Outpatient rehabilitation services when no medical diagnosis is present.
17. Drugs provided or administered by a physician or other provider, except those drugs that meet the definition of “professionally administered drugs.” Coverage for “professionally administered drugs” is as described under *Professionally Administered Drugs*. Coverage for drugs is as described in *Prescription Drugs*, *Prescription Specialty Drugs* or otherwise described as a specific benefit elsewhere in this section.

K. Hospice

Medica covers hospice services including respite care. Care must be ordered, provided or arranged under the direction of a physician and received from a hospice program.

Hospice services are comprehensive palliative medical care and supportive social, emotional and spiritual services. These services are provided to terminally ill persons and their families, primarily in the patients’ homes. A hospice interdisciplinary team, composed of professionals and volunteers, coordinates an individualized plan of care for each patient and family. The goal of hospice care is to make patients as comfortable as possible to enable them to live their final days to the fullest in the comfort of their own homes and with loved ones.

Medica contracts with hospice programs to provide hospice services to members. The specific services you receive may vary depending upon which program you select.

Respite care is a form of hospice services that gives uncompensated primary caregivers (i.e., family members or friends) rest or relief when necessary to maintain a terminally ill member at home.

To be eligible for the hospice benefits described in this section, you must:

1. Be a terminally ill patient; and
2. Have chosen a palliative treatment focus (i.e., one that emphasizes comfort and supportive services rather than treatment attempting to cure the disease or condition).

You will be considered terminally ill if there is a written medical prognosis by your physician that your life expectancy is six months or less if the terminal illness runs its normal course. This certification must be made not later than two days after the hospice care is initiated.

Members who elect to receive hospice services do so in place of curative treatment for their terminal illness for the period they are enrolled in the hospice program.

You may withdraw from the hospice program at any time upon written notice to the hospice program. You must follow the hospice program's requirements to withdraw from the hospice program.

Not covered:

1. Hospice services provided by a non-network provider.
2. Respite care for more than five consecutive days at a time.
3. Home health care and skilled nursing facility services when services are not consistent with the hospice program's plan of care.
4. Services not included in the hospice program's plan of care, including room and board charges or fees.
5. Services not provided by the hospice program.
6. Hospice daycare, except when recommended and provided by the hospice program.
7. Any services provided by a family member or friend, or individuals who are residents in your home.
8. Financial or legal counseling services, except when recommended and provided by the hospice program.
9. Housekeeping or meal services in your home, except when recommended and provided by the hospice program.
10. Bereavement counseling, except when recommended and provided by the hospice program.

L. Hospital

Medica covers physician directed hospital and ambulatory surgical center services as described in the Benefit Chart section of this Policy. More than one copayment or coinsurance may be required if you receive more than one service, or see more than one provider per visit.

Important: The most specific and appropriate section of this Policy will apply for benefits related to the treatment of a specific condition.

When an inpatient stay spans an old and new policy year, the benefit for charges billed on the hospital claim will be based on the old policy year provisions. Certain covered services received, such as a physician visit or lab and pathology services, performed during the inpatient stay but billed separately from the hospital, will apply to the benefits in effect on the date the covered service was provided.

If your coverage under this Policy ends during your inpatient stay, Medica will not cover the portion of your inpatient stay or other services received after this Policy terminates.

Not covered:

1. Services received from a non-network hospital or non-network ambulatory surgical center.
2. Drugs received at a hospital on an outpatient basis, except drugs that meet the definition of “professionally administered drugs” or drugs received in an emergency room or a hospital observation room. Coverage for “professionally administered drugs” is as described under *Professionally Administered Drugs*. Coverage for drugs is as described in *Prescription Drugs* and *Prescription Specialty Drugs*.
3. Admission to another hospital is not covered when care for your condition is available at the network hospital where you were first admitted.

M. Infertility Services

Medica’s coverage is limited to the diagnosis of infertility as described in the Benefit Chart section of this Policy. Coverage includes benefits for professional, hospital and ambulatory surgical services. All services, supplies and associated expenses for the treatment of infertility are not covered.

Not covered:

1. Services received for the diagnosis of infertility provided by a non-network provider.
2. Procedures, tests or other services that are exclusively provided to monitor the effectiveness of non-covered fertilization procedures.
3. Physician, hospital and ambulatory surgical center services for the treatment of infertility.
4. Infertility drugs.
5. Assisted reproductive technology services, including but not limited to: in vitro fertilization (IVF), gamete and zygote intrafallopian transfer (GIFT and ZIFT) procedures; tubal embryo transfer; intracytoplasmic sperm injection (ICSI); ova or embryo acquisition, retrieval, donation, preservation, and/or storage; and/or any conception that occurs outside the woman’s body.
6. Services related to surrogate pregnancy for a person not covered as a member under this Policy.
7. Services related to adoption.
8. Collection, retrieval, purchase, freezing and/or storage of sperm or eggs.

9. Services for intrauterine insemination (IUI).

N. Lab and Pathology

Medica covers services provided in a clinic or outpatient hospital facility as described in the Benefit Chart section of this Policy. Inpatient lab and pathology services are covered at the *Hospital or Skilled Nursing Facility* benefit level as described in the Benefit Chart section of this Policy.

Please note: Lab and pathology for preventive health care services are covered at the *Preventive Health Care* benefit level as described in the Benefit Chart section of this Policy.

Not covered:

Lab and pathology services provided by a non-network provider.

O. Maternity

Medica covers medical services for prenatal care, labor and delivery, postpartum care and related complications as described in the Benefit Chart section of this Policy. Under the **Newborns' and Mothers' Health Protection Act of 1996** Medica may not restrict benefits for any hospital stay in connection with childbirth for the mother or newborn child member to less than 48 hours following a vaginal delivery (or less than 96 hours following a cesarean section). However, federal law generally does not prohibit the mother or newborn child member's attending provider, after consulting with the mother, from discharging the mother or her newborn earlier than 48 hours (or 96 hours, as applicable). In any case, Medica may not require a provider to obtain prior authorization from Medica for a length of stay of 48 hours or less (or 96 hours, as applicable).

If the attending physician, in consultation with the mother, authorizes a shorter inpatient stay, Medica will provide post-discharge care for the mother and newborn child member for 2 visits (at least 1 visit in the home). A physician or provider (registered professional nurse) with experience in maternal and child health nursing must provide post-discharge care. Post-discharge services include but are not limited to:

- Physical assessment of the mother and newborn child member;
- Parent education;
- Assistance and training in breast or bottle feeding;
- Education and services for complete childhood immunizations;
- Performance of any necessary and appropriate clinical tests; and
- Submission of a metabolic specimen satisfactory to the state laboratory.

More than one copayment or coinsurance may be required if you receive more than one service or see more than one provider per visit. Medica encourages you to enroll your newborn dependent under this Policy within 30 days from the date of birth, date of placement for adoption or date of adoption.

Each member's hospital admission is separate from the admission of any other member. That means a separate deductible and copayment or coinsurance will be applied to both you and your newborn for inpatient services related to labor and delivery.

Not all services that are received during your pregnancy are considered prenatal care. Some of the services that are not considered prenatal care include (but are not limited to) treatment of the following:

1. Conditions that existed prior to (and independently of) the pregnancy, such as diabetes or lupus, even if the pregnancy has caused those conditions to require more frequent care or monitoring.
2. Conditions that have arisen concurrently with the pregnancy but are not directly related to care of the pregnancy, such as back and neck pain or skin rash.
3. Miscarriage and ectopic pregnancy.

Services that are not considered prenatal care may be eligible for coverage under the most specific and appropriate section of this Policy. Please refer to the Benefit Chart section of this Policy for coverage information.

When an inpatient stay spans an old and new policy year, the benefit for charges billed on the hospital claim will be based on the old policy year provisions. Certain covered services received, such as a physician visit or lab and pathology services, performed during the inpatient stay but billed separately from the hospital, will apply to the benefits in effect on the date the covered service was provided.

If your coverage under this Policy ends during your inpatient stay, Medica will not cover the portion of your inpatient stay or other services received after this Policy terminates.

Not covered:

1. Maternity care provided by a non-network provider.
2. Health care professional services for maternity labor delivery in the home.
3. Services from a doula.
4. Childbirth and other educational classes.

P. Medical Related Dental

Medica covers certain dental services received from a physician or dentist as described in the Benefit Chart section of this Policy.

Medica covers the evaluation(s) to determine whether you have temporomandibular joint (TMJ) disorder and the surgical and non-surgical treatment of a diagnosed TMJ disorder. Services must be received from (or under the direction of) physicians or dentists. Coverage for treatment of TMJ disorder includes coverage for the treatment of craniomandibular disorder. TMJ disorder is covered the same as any other joint disorder as described in the Benefit Chart section of this Policy.

Not covered:

1. Medical-related dental services provided by a non-network provider.

2. General dentistry including, but not limited to, diagnostic and preventive services, restorative services, endodontic services, periodontal services, indirect fabrications, dentures and bridges, and orthodontic services.
3. Dental services to treat an injury from biting or chewing.
4. Treatment for bruxism.
5. Tooth extractions.
6. Osteotomies and other procedures associated with the fitting of dentures or dental implants.
7. Dental prostheses.
8. Occlusal adjustment or occlusal equilibrium.
9. Dental implants (tooth replacement).
10. Orthognathic surgery for cosmetic purposes.
11. Diagnostic casts, diagnostic study models and bite adjustments unless related to the treatment of TMJ disorder and craniomandibular disorder.
12. Any other dental procedures or treatment, whether the dental treatment is needed because of a primary dental problem or as a manifestation of a medical treatment or condition.

Q. Mental Health

Medica covers services to diagnose and treat mental disorders listed in the current edition of the *Diagnostic and Statistical Manual of Mental Disorders* as described in the Benefit Chart section of this Policy.

Mental health benefits

Medica requires prior authorization (approval in advance) before you receive certain mental health services or treatment. To determine if Medica requires prior authorization for a particular service or treatment, please call your plan's designated mental health and substance use disorder provider at the number on the back of your Medica ID card. Please see *Referrals and Prior Authorization* in the *Introduction* for more information about prior authorization requirements and processes.

Your plan's designated mental health and substance use disorder provider will coordinate your network mental health services. If you require hospitalization, your plan's designated mental health and substance use disorder provider will refer you to one of its hospital providers.

Emergency mental health services are covered benefits. After receiving emergency mental health inpatient services please notify your plan's designated mental health and substance use disorder provider at the number on the back of your Medica ID card as soon as reasonably possible.

Outpatient mental health services include:

1. Diagnostic evaluations and psychological testing.

2. Psychotherapy and psychiatric services.
3. Intensive outpatient programs, including day treatment and partial programs, which may include multiple services/modalities and lodging, delivered in an outpatient setting (up to 19 hours per week).
4. Relationship and family therapy if there is a clinical diagnosis.
5. Treatment of serious or persistent disorders.
6. Diagnostic evaluation for attention deficit hyperactivity disorder (ADHD).
7. Treatment of pathological gambling.

Inpatient services include:

1. Room and board.
2. Attending psychiatric services.
3. Hospital or facility-based professional services.
4. Partial program. This may be in a freestanding facility or hospital based. Active treatment is provided through specialized programming with medical/psychological intervention and supervision during program hours. Partial program means a treatment program of 20 hours or more per week and may include lodging.
5. Residential treatment services. Residential treatment services must be provided in a program or facility that is licensed, accredited or certified to provide such services by the appropriate state agency, or accredited by CARF International or JCAHO.

These services include:

- a. A residential treatment program serving children and adolescents with severe emotional disturbance; or
- b. A licensed or certified mental health treatment program providing intensive therapeutic services. In addition to room and board, at least 30 hours a week per individual of mental health services must be provided, including group and individual counseling, client education and other services specific to mental health treatment. Also, the program must provide an on-site medical/psychiatric assessment within 48 hours of admission, psychiatric follow-up visits at least once per week and 24 hour nursing coverage.

Not covered:

1. Mental health services provided by a non-network provider (except that two visits to a non-network licensed psychiatrist, licensed psychologist, licensed professional counselor, or licensed clinical social worker for the purposes of diagnosis or assessment shall be covered at the in-network benefit level if the service would be covered if provided by a network provider).
2. Services for mental disorders not listed in the current edition of the *Diagnostic and Statistical Manual of Mental Disorders*.
3. Services, care or treatment that is not medically necessary.
4. Relationship and family therapy in the absence of a clinical diagnosis.

5. Telephonic psychotherapy treatment services, unless such services are provided in accordance with Medica's telemedicine policies and procedures.
6. Services, including room and board charges, provided by health care professionals or facilities that are not appropriately licensed, certified or otherwise qualified under state law to provide mental health services. This includes, but is not limited to, services provided by mental health providers who are not authorized under state law to practice independently, and services received at a halfway house, therapeutic group home, boarding school or ranch.
7. Services to assist in activities of daily living that do not seek to cure and are performed regularly as a part of a routine or schedule.
8. Room and board charges associated with mental health residential treatment services providing less than 30 hours a week per individual of mental health services, or lacking an on-site medical/psychiatric assessment within 48 hours of admission, psychiatric follow-up visits at least once per week and 24-hour nursing coverage.
9. Drugs provided or administered by a physician or other provider, except those drugs that meet the definition of "professionally administered drugs." Coverage for "professionally administered drugs" is as described under *Professionally Administered Drugs*. Coverage for drugs is as described in *Prescription Drugs*, *Prescription Specialty Drugs* or otherwise described as a specific benefit elsewhere in this section.

R. Office Visits

Please note: This benefit does not include services received from locations using "hospital-based outpatient billing" practices. The most specific and appropriate benefit in this Policy will apply for each service received at that type of provider. If you are unsure if your provider uses these billing practices, please contact them.

Medica covers office visits as described in the Benefit Chart section of this Policy.

Important: The most specific and appropriate section of this Policy will apply for benefits related to the treatment of a specific condition. For some services, there may be a facility charge resulting in copayment or coinsurance in addition to the provider services copayment or coinsurance. More than one copayment or coinsurance may also be required if you receive more than one service, or see more than one provider per visit. Call Customer Service at the number on the back of your Medica ID card to determine in advance whether a specific procedure is a benefit and the applicable coverage level for each service that you receive.

Not covered:

1. Office visit services provided by a non-network provider.
2. Drugs provided or administered by a physician or other provider, except those drugs that meet the definition of "professionally administered drugs." Coverage for "professionally administered drugs" is as described under *Professionally Administered Drugs*. Coverage for drugs is as described in *Prescription Drugs*, *Prescription Specialty Drugs* or otherwise described as a specific benefit elsewhere in this section.

S. Organ and Bone Marrow Transplants and Other Complex Health Conditions

Medica covers certain organ and bone marrow transplant services and services for other complex health conditions. Not all network hospitals are designated facilities for organ and bone marrow transplants and other complex health conditions. Services covered under this section must be provided under the direction of a physician and received at a designated facility. Coverage under this section is provided for certain complex health conditions and certain types of organ or bone marrow transplants and related services (including organ acquisition and procurement) that are:

- medically necessary,
- appropriate for the diagnosis,
- without contraindications, and
- non-investigative.

Organ and Bone Marrow Transplants: Medica uses specific medical criteria to determine benefits for organ and bone marrow transplant services. Because medical technology is constantly changing, Medica reserves the right to review and update these medical criteria. Benefits for each individual member will be determined based on the clinical circumstances of the member according to Medica's medical criteria.

Coverage is provided for the following human organ transplants, if appropriate, under Medica's medical criteria and not otherwise excluded from coverage:

- kidney,
- lung,
- heart,
- heart/lung,
- pancreas,
- pancreas/kidney,
- intestinal,
- liver,
- allogeneic, autologous and syngeneic bone marrow. Bone marrow transplants include the transplant of stem cells from bone marrow, peripheral blood and umbilical cord blood.

The preceding is not a comprehensive list of eligible organ and bone marrow transplant services.

Benefits apply to transplant services provided by a network provider and received at a designated facility for transplant services. Medica has entered into separate contracts to provide certain transplant-related health services to members receiving transplants. You

may be evaluated and listed as a potential recipient at multiple designated facilities for transplant services.

Medica requires that all pre-transplant, transplant and post-transplant services, from the time of the initial evaluation through no more than one year after the date of the transplant, be received at one designated facility (that you select from among the list of transplant facilities Medica provides). Based on the type of transplant you receive, Medica will determine the specific time period medically necessary for these services.

Other Complex Health Conditions: Defined services from the designated specialty complex care provider are covered when:

1. You have received an undifferentiated diagnosis or diagnosis of a complex condition;
2. You have been referred to the designated facility by your network provider;
3. The designated facility has agreed to provide to you complex care health services; and
4. You or your network referring provider have received an authorization number from Medica.

Complex care health services are services provided for the exclusive purpose of treating a complex health condition that involves one or more of the following elements: (i) is life threatening; (ii) may cause serious disability or other severe consequences, including risk of morbidity or mortality; (iii) affects multiple organ systems; (iv) the required treatments are technically challenging and carry a risk of serious complications; (v) is medically complex or rare; or (vi) previous treatments have failed or there is no known diagnosis for the condition. A condition may meet one or more of the above criteria but still not require complex care health services. Whether treatment of a condition requires the provision of complex care health services will be determined by your network provider and the designated facility, in consultation with Medica.

Important: An approved referral is required before you receive complex care health services. Please see Referrals to non-network providers in Prior Authorization and Referrals for more information about referral requirements and the process for receiving an authorized referral.

Services covered under this section must be provided under the direction of a specialty complex care provider and received at a designated facility. Coverage under this section is provided for complex care medical services and that are:

- medically necessary,
- appropriate for the condition
- without contraindications, and
- non-investigative.

Benefits for complex health conditions under this section apply to complex care health services provided at the designated facility by a specialty complex care provider.

Not covered:

1. Services provided by a non-network provider or non-designated facility.

2. Organ and bone marrow transplant services, except as described in this section.
3. Supplies and services related to transplants that would not be authorized by Medica under the medical criteria referenced in this section.
4. Chemotherapy, radiation therapy, drugs or any therapy used to damage the bone marrow and related to transplants that would not be authorized by Medica under the medical criteria referenced in this section.
5. Living donor transplants that would not be authorized by Medica under the medical criteria referenced in this section.
6. Islet cell transplants except for autologous islet cell transplants associated with pancreatectomy.
7. Services required to meet the patient selection criteria for the authorized procedure. This includes:
 - treatment of nicotine or caffeine addiction,
 - services and related expenses for weight loss programs,
 - nutritional supplements,
 - appetite suppressants, and
 - supplies of a similar nature not otherwise covered under this Policy.
8. Mechanical, artificial or non-human organ implants or transplants and related services that would not be authorized by Medica under the medical criteria referenced in this section.
9. Services that are investigative.
10. Private collection and storage of umbilical cord blood for directed use.
11. Drugs provided or administered by a physician or other provider on an outpatient basis, except those drugs that meet the definition of “professionally administered drugs.” Coverage for “professionally administered drugs” is as described under *Professionally Administered Drugs*. Coverage for drugs is as described in *Prescription Drugs* and *Prescription Specialty Drugs* or otherwise described as a specific benefit in this Policy.

T. Physical, Occupational and Speech Therapy

Medica covers the following rehabilitative and habilitative care:

- outpatient physical therapy,
- outpatient speech therapy, and
- outpatient occupational therapy,

as described in the Benefit Chart section of this Policy. A physician must direct your care.

Not covered:

1. Physical, occupational or speech therapy provided by a non-network provider.
2. Services primarily educational in nature.
3. Vocational and job rehabilitation.
4. Recreational therapy.
5. Self-care and self-help training (non-medical).
6. Health clubs.
7. Physical, occupational or speech therapy services when there is no reasonable expectation of improvement.
8. Voice training.
9. Group physical, speech and occupational therapy.

U. Prescription Drugs

Prescription drugs and supplies are covered if they are:

- Prescribed by an authorized provider,
- Included on Medica's drug list (unless identified as not covered), and
- Received from a network pharmacy.

The Benefit Chart section of this Policy describes your copayment or coinsurance for prescription drugs themselves. An additional copayment or coinsurance applies for the provider's services if you require that a provider administer self-administered drugs, as described in other applicable sections of this Policy. For these purposes, "self-administered drugs" are drugs that do not meet the definition of "professionally administered drugs."

Coverage for specialty prescription drugs (drugs used to treat complex conditions and which may require special handling) is described in the next section, *Prescription Specialty Drugs*.

While diabetic equipment and supplies, including blood glucose meters, are covered under the diabetic equipment and supplies benefit in this section, coverage for insulin pumps and related supplies is described under *Durable Medical Equipment, Prosthetics and Miscellaneous Medical Supplies*.

Medica's Drug List

Medica's drug list (Drug List) is comprised of drugs that meet the medical needs of our members and have proven safety and effectiveness. It includes both brand-name and generic drugs. The drugs on this list have been approved by the Food and Drug Administration (FDA). The Drug List identifies whether a drug is classified by Medica as a generic, preferred brand or non-preferred brand drug. A team of physicians and pharmacists meets regularly to review and update the Drug List. Your doctor can use this list to select medications for your health care needs, while helping you maximize your prescription drug benefit. You will be notified, in advance, in writing upon your request, if there are any changes to the Drug List that affect medications you are receiving. The notification will be

provided at least thirty days prior to a removal of a medication you are receiving from the Drug List (unless the removal is a generic substitution).

The terms “generic” and “brand name” are used in the health care industry in different ways. To better understand your coverage, please review the following:

Generic: A drug: (1) that contains the same active ingredient as a brand name drug and is chemically equivalent to a brand name drug in strength, concentration, dosage form and route of administration; or (2) that Medica identifies as a generic product. Medica uses industry standard resources to determine a drug’s classification as either brand name or generic. Not all products identified as “generic” by the manufacturer, pharmacy or your provider may be classified by Medica as generic.

Generic drugs are your lower copayment or coinsurance options. Consider a generic covered drug if you and your provider decide such a drug is appropriate for your treatment. Generic drugs may be identified in the Drug List as Tier 1.

Brand: A drug: (1) that is manufactured and marketed under a trademark or name by a specific drug manufacturer; or (2) that Medica identifies as a brand name product. Medica uses industry standard resources to determine a drug’s classification as either brand name or generic. Not all products identified as “brand name” by the manufacturer, pharmacy or your provider may be classified by Medica as brand name.

Preferred brand drugs on the Drug List have a higher copayment or coinsurance. You may consider a preferred brand covered drug to treat your condition if you and your provider decide it is appropriate. Preferred brand drugs may be identified in the Drug List as Tier 2.

Non-preferred brand drugs have the highest copayment or coinsurance. The covered non-preferred brand drugs are usually more costly. Non-preferred brand drugs may be identified in the Drug List as Tier 3.

If you have questions about Medica’s Drug List or whether a specific drug is covered (and/or whether the drug is generic, preferred brand or non-preferred brand), or if you would like to request a copy of the Drug List at no charge, call Customer Service at the number on the back of your Medica ID card. It is also available on **medicamember.com**.

Prescription unit

A prescription unit is the amount that will be dispensed unless it is limited by the drug manufacturer’s packaging, dosing instructions or Medica’s medication request guidelines. This includes quantity limits that are indicated on the Drug List. Copayment or coinsurance amounts will apply to each prescription unit dispensed. If a prescription drug covered by Medica is prescribed in a single dosage amount for which the particular prescription drug is not manufactured in such single dosage amount and requires dispensing the particular prescription drug in a combination of different manufactured dosage amounts, and if the prescription is not in excess of a one-month supply, Medica shall only apply one copayment for the dispensing of the combination of manufactured dosages that equal the prescribed dosage for such prescription drug.

One prescription unit from a pharmacy is a 31-consecutive-day supply (or, in the case of contraceptives, up to a one-cycle supply).

Medica has specifically designated certain network pharmacies to dispense multiple prescription units. These pharmacies may dispense three prescription units for covered drugs prescribed to treat chronic conditions. For the list of these designated pharmacies, visit **medica.com** or call Customer Service.

Special requirements

For some prescriptions there are special requirements that must be met in order to receive coverage. These include:

Prior authorization (PA)

Certain drugs require prior authorization (approval in advance) from Medica in order to be covered. These medications are shown on the Drug List with the abbreviation “PA.” The Drug List is available to providers, including pharmacies. Please see *Prior authorization in Referrals and Prior Authorization* for more information about prior authorization requirements and processes. Your network provider who prescribes the drug should initiate the prior authorization process. You must contact Customer Service to request prior authorization for drugs prescribed by a non-network provider. You will pay the entire cost of the drug received if you do not meet Medica’s authorization criteria.

Step therapy (ST)

Step therapy is a process that involves trying an alternative covered drug first (typically a generic drug) before moving to a preferred brand or non-preferred brand covered drug for treatment of the same medical condition. The medications subject to step therapy are shown on the Drug List with the abbreviation “ST.” You must meet applicable step therapy requirements before Medica will cover these preferred brand or non-preferred brand drugs.

Quantity limits (QL)

Certain covered drugs have limits on the maximum quantity allowed per prescription over a specific time period. The medications subject to quantity limits are shown on the Drug List with the abbreviation “QL.” Some quantity limits are based on the manufacturer’s packaging, FDA labeling or clinical guidelines.

Pharmacy requirement

Certain self-administered cancer treatment medications must be obtained from a Medica-designated specialty pharmacy in order to be covered.

Generic requirement

Certain covered preferred brand and non-preferred brand drugs include a chemically equivalent generic drug on the Drug List. If you still choose to use a preferred brand or non-preferred brand prescription drug, Medica will pay the amount that Medica would have paid had you received the generic drug. You will pay, in addition to the applicable deductible, copayment or coinsurance described in the table, any remaining charges due to the pharmacy in excess of Medica’s payment to the pharmacy. **These charges are not applied to your deductible or out-of-pocket maximum.**

If your health care provider requests that a preferred brand or non-preferred brand drug be dispensed as written and there is a chemically equivalent generic drug on the Drug List, the drug will be covered at the non-preferred brand benefit level.

Please note that receiving preferred brand or non-preferred brand drugs when an equivalent generic drug is on the Drug List may result in significantly more out-of-pocket costs.

Exceptions to the Drug List

In certain cases, it is possible to get an exception to the coverage rules described under *Medica's Drug List* above. **Please note that exceptions will only be allowed when specific clinical criteria are satisfied.** Any exception that Medica grants will improve the coverage by only one benefit level. However, no member cost sharing will apply for exceptions applicable to preventive health services.

If you have a health condition that may seriously jeopardize your life, health or ability to regain maximum function or if you are undergoing a current course of treatment with a drug not included on the Drug List, an expedited review may be requested. Medica will make a determination and provide notification on an expedited review request within 24 hours of receiving the request. For all other exception requests (standard requests), Medica will make a determination and provide notification within 72 hours of receiving the request.

If Medica denies your request for an exception, you, your provider or other designee may request an independent review of Medica's decision by an external review organization. To make a request, you may call Customer Service at the number on the back of your Medica ID card or contact Medica by writing to Customer Service, Route CP595, PO Box 9310, Minneapolis, MN 55440-9310. You will be notified of the external review organization's decision within 72 hours of receipt of the request for external review, unless you are requesting review of a denial that was completed as an expedited review. In that case, you will be notified of the external review organization's decision within 24 hours of receipt of the request for external review.

If you would like to request a copy of Medica's Drug List exception process or for more information regarding the expedited review process, call Customer Service at the number on the back of your Medica ID card.

Not covered:

1. Prescription drugs, including diabetic equipment and supplies and preventive drugs and other supplies, received at a non-network pharmacy.
2. Any amount above what Medica would have paid when you fail to identify yourself to the pharmacy as a member. (Medica will notify you before enforcement of this provision.)
3. Over the counter (OTC) drugs that by federal or state law do not require a prescription order or refill and any medication that is therapeutically equivalent to an OTC drug.
4. Replacement of a drug due to loss, damage or theft.
5. Appetite suppressants.
6. Weight loss medications.
7. Sexual dysfunction medications.
8. Non-sedating antihistamines and non-sedating antihistamine/decongestant combinations.

9. Proton pump inhibitors, except for members twelve (12) years of age and younger, and those members who have a feeding tube.
10. Drugs prescribed by a provider who is not acting within his/her scope of licensure.
11. Homeopathic medicine.
12. Infertility drugs.
13. Specialty prescription drugs, except as described in *Prescription Specialty Drugs*.
14. Drugs and supplies not listed on the Medica's Drug List, unless covered through the exception process described in this Policy. Such exclusions are in addition to drugs or classes of drugs excluded under other provisions of this Policy.
15. Bulk powders, chemicals and products used in prescription drug compounding.
16. Products that are duplicative to, or are in the same class and category as, products on Medica's Drug List.
17. New to market drugs: Products recently approved by the FDA and introduced into the market will not be covered until they are reviewed and considered for placement on the Drug List.

V. *Prescription Specialty Drugs*

Specialty medications are high-technology, high cost, oral or injectable drugs used for the treatment of certain diseases that require complex therapies. Many specialty medications require special handling and in most cases are prescribed by a specialist.

Specialty prescription drugs are covered if they are:

- Prescribed by an authorized provider,
- Included on Medica's specialty drug list (unless identified as not covered), and
- Received from a designated specialty pharmacy.

A current list of designated specialty pharmacies is available on **medicamember.com**. You can also call Customer Service at the number on the back of your Medica ID card.

The Benefit Chart section of this Policy describes your copayment or coinsurance for the specialty prescription drug. An additional copayment or coinsurance will apply for a provider's services if you require that they administer a self-administered drug. For these purposes, "self-administered drugs" are drugs that do not meet the definition of "professionally administered drugs."

Medica's Specialty Drug List

Medica's specialty drug list (Specialty Drug List) is comprised of drugs that meet the medical needs of our members and have been selected based on their safety, effectiveness, uniqueness and cost. They have been approved by the Food and Drug Administration (FDA). A team of physicians and pharmacists meets regularly to review and update the Specialty Drug List.

You and your doctor can use this list to select medications for your health care needs, while helping you maximize your prescription drug benefit. You will be notified in advance if there are any changes to the Specialty Drug List that affect medications you are receiving. The notification will be provided at least thirty days prior to a removal of a medication you are receiving from the Specialty Drug List (unless the removal is a generic substitution).

Preferred specialty prescription drugs are your lowest copayment or coinsurance option. For your lowest share of the cost, consider a preferred specialty prescription drug if you and your physician decide it is appropriate for your treatment. Preferred specialty drugs may be identified in the Specialty Drug List as Tier 4.

Non-preferred specialty prescription drugs have a higher copayment or coinsurance than preferred specialty prescription drugs. There is no copayment or coinsurance difference between a generic specialty prescription drug and a brand name specialty prescription drug within the non-preferred specialty prescription drug category. Consider a non-preferred specialty prescription drug if you and your physician decide it is appropriate for your treatment. Non-preferred specialty drugs may be identified in the Specialty Drug List as Tier 5.

If you have questions about Medica's Specialty Drug List or whether a specific specialty prescription drug is covered (and/or the benefit level at which the drug may be covered), or if you would like to request a copy of the Specialty Drug List, at no charge, call Customer Service at the number on the back of your Medica ID card. It is also available on **medicamember.com**.

Prescription unit

One prescription unit from a designated specialty pharmacy is a 31-consecutive-day supply.

A prescription unit is the amount that will be dispensed unless it is limited by the drug manufacturer's packaging, dosing instructions or Medica's medication request guidelines. This includes quantity limits that are indicated on the Specialty Drug List. Copayment or coinsurance amounts will apply to each prescription unit dispensed. If a prescription drug covered by Medica is prescribed in a single dosage amount for which the particular prescription drug is not manufactured in such single dosage amount and requires dispensing the particular prescription drug in a combination of different manufactured dosage amounts, and if the prescription is not in excess of a one-month supply, Medica shall only apply one copayment for the dispensing of the combination of manufactured dosages that equal the prescribed dosage for such prescription drug.

Special requirements

For some prescriptions there are special requirements that must be met in order to receive coverage. These include:

Prior authorization

Certain specialty prescription drugs require prior authorization (approval in advance) from Medica in order to be covered. These medications are shown on the Specialty Drug List with the abbreviation "PA." The Specialty Drug List is available to providers, including designated specialty pharmacies. Please see *Prior authorization in Referrals and Prior Authorization* for more information about prior authorization requirements and processes. Your network provider who prescribes the drug should initiate the prior authorization process. You must

contact Customer Service to request prior authorization for drugs prescribed by a non-network provider. You will pay the entire cost of the drug received if you do not meet Medica's authorization criteria.

Step therapy (ST)

Step therapy is a process that involves trying an alternative covered specialty prescription drug (typically a preferred drug) before moving to certain other preferred or non-preferred drugs. The medications subject to Step Therapy are shown on the Specialty Drug List with the abbreviation "ST." You must meet applicable step therapy requirements before Medica will cover these preferred or non-preferred drugs.

Quantity limits (QL)

Certain covered specialty prescription drugs have limits on the maximum quantity allowed per prescription over a specific period of time. These specialty medications are shown on the Specialty Drug List with the abbreviation "QL." Some quantity limits are based on the manufacturer's packaging, FDA labeling or clinical guidelines.

Preferred requirement for specialty prescription drugs

Certain covered non-preferred specialty drugs include a chemically equivalent preferred specialty drug on the Specialty Drug List. If you still choose to use a non-preferred specialty prescription drug, Medica will pay the amount that Medica would have paid had you received the preferred specialty drug. You will pay, in addition to the applicable deductible, copayment or coinsurance described in the table, any remaining charges due to the pharmacy in excess of Medica's payment to the pharmacy. These charges are not applied to your deductible or out-of-pocket maximum.

If your health care provider requests that a non-preferred specialty drug be dispensed as written and there is a chemically equivalent preferred specialty drug on the Specialty Drug List, the drug will be covered at the preferred benefit level.

Please note that receiving non-preferred specialty drugs when an equivalent preferred specialty drug is on the Specialty Drug List may result in significantly more out-of-pocket costs.

Exceptions to the Specialty Drug List

In certain cases, it is possible to get an exception that will cover a specialty medication that is generally not covered. **Please note that exceptions will only be allowed when specific clinical criteria are satisfied.** Any exception that Medica grants will improve the coverage by only one benefit level.

If you have a condition that may seriously jeopardize your life, health or ability to regain maximum function or if you are undergoing a current course of treatment with a drug not included on the Specialty Drug List, an expedited review may be requested. Medica will make a determination and provide notification on an expedited review request within 24 hours of receiving the request. For all other exception requests (standard requests), Medica will make a determination and provide notification within 72 hours of receiving the request.

If Medica denies your request for an exception, you, your provider or other designee may request an independent review of Medica's decision by an external review organization. To make a request, you may call Customer Service at the number on the back of your Medica ID

card or contact Medica by writing to Customer Service, Route CP595, PO Box 9310, Minneapolis, MN 55440-9310. You will be notified of the external review organization's decision within 72 hours of receipt of the request for external review, unless you are requesting review of a denial that was completed as an expedited review. In that case, you will be notified of the external review organization's decision within 24 hours of receipt of the request for external review.

If you would like to request a copy of Medica's Specialty Drug List exception process or for more information regarding the expedited review process, call Customer Service at the number on the back of your Medica ID card.

Not covered:

1. Specialty prescription drugs received from a pharmacy that is not a designated specialty pharmacy.
2. Any amount above what Medica would have paid when you fail to identify yourself to the designated specialty pharmacy as a member. (Medica will notify you before enforcement of this provision.)
3. Replacement of a specialty prescription drug due to loss, damage or theft.
4. Specialty prescription drugs prescribed by a provider who is not acting within their scope of licensure.
5. Prescription drugs and OTC drugs, except as described in *Prescription Drugs*.
6. Weight loss medications.
7. Specialty drugs not listed on Medica's Specialty Drug List, unless covered through the exception process described in this Policy.
8. Infertility drugs.
9. New to market drugs: Products recently approved by the FDA and introduced into the market will not be covered until they are reviewed and considered for placement on the Specialty Drug List.

W. Preventive Health Care

Medica covers the following eligible preventive health services as described in the Benefit Chart section of this Policy:

1. Child health supervision services, including well-baby care.
2. Immunizations.
3. Early disease detection services including physicals.
4. Routine screening procedures for cancer.
5. Women's preventive health services including mammograms, screenings for cervical cancer, human papillomavirus (HPV) testing, counseling for sexually transmitted infections, counseling for immunodeficiency virus (HIV), BRCA genetic testing and related genetic counseling (when appropriate) and sterilization.

6. Other preventive health services.

Please see the definition of Preventive Health Services for more information.

Please note: If you receive preventive and non-preventive health services during the same visit, the non-preventive health services may be subject to a copayment, coinsurance or deductible, as described in other applicable sections in the Benefit Chart section of this Policy. The most specific and appropriate benefit will apply for each service received during a visit.

Not covered:

Preventive health services provided by a non-network provider.

X. Professionally Administered Drugs

Medica covers medically necessary professionally administered drugs that are administered, in conjunction with a covered benefit such as an office visit or home health care visit, by a physician acting within the scope of the provider's license, on an outpatient basis in a hospital, physician's office or in your home.

Prior authorization (approval in advance) is required before you receive certain biologics, biosimilars and professionally administered drugs. Certain biologics, biosimilars and professionally administered drugs may be subject to step therapy. In certain cases, it is possible to get an exception to step therapy requirements. To obtain more information about the step therapy exception process call Customer Service at the number on the back of your Medica ID card.

If you require certain professionally administered drugs, we may direct you to a designated facility with whom we have an arrangement to provide those certain professionally administered drugs. Such designated facilities may include an outpatient pharmacy, specialty pharmacy, home health care agency, home infusion provider, hospital-affiliated pharmacy or hemophilia treatment center contracted pharmacy. If you or your provider administering the professionally administered drugs are directed to a designated facility and you or your provider choose not to obtain your professionally administered drug from that designated facility, benefits are not available under this Policy for that professionally administered drug.

Not covered:

Professionally administered drugs provided by a non-network provider.

Y. Reconstructive and Restorative Surgery (Including Mastectomy Reconstruction)

Medica covers medically necessary reconstructive and restorative surgery services. To be eligible, reconstructive and restorative surgery services must be medically necessary and not cosmetic.

Medica will cover all stages of reconstruction of the breast on which the mastectomy was performed and surgery and reconstruction of the other breast to produce a symmetrical appearance. Medica will also cover prostheses and physical complications, including lymphedemas, at all stages of mastectomy.

Medica will not impose a time limit for receipt of prosthetic devices or reconstructive surgery, but will apply the same deductible, coinsurance and or copayments that normally apply to prosthetic devices or reconstructive surgery.

Not covered:

1. Reconstructive and restorative surgery services provided by a non-network provider.
2. Revision of blemishes on skin surfaces and scars (including scar excisions) primarily for cosmetic purposes, unless otherwise covered in this Policy.
3. Repair of a pierced body part and surgical repair of bald spots or loss of hair.
4. Repairs to teeth, including any other dental procedures or treatment, whether the dental treatment is needed because of a primary dental problem or as a manifestation of a medical treatment or condition.
5. Services and procedures primarily for cosmetic purposes.
6. Surgical correction of male breast enlargement primarily for cosmetic purposes.
7. Hair transplants.
8. Drugs provided or administered by a physician or other provider on an outpatient basis, except those drugs that meet the definition of “professionally administered drugs.” Coverage for “professionally administered drugs” is as described under *Professionally Administered Drugs*. Coverage for drugs is as described in *Prescription Drugs* and *Prescription Specialty Drugs*, or otherwise described as a specific benefit in this Policy.
9. Orthognathic surgery for cosmetic purposes.

Z. Skilled Nursing Facility

Medica covers skilled nursing facility services as described in the Benefit Chart section of this Policy. Care must be provided under the direction of a physician. Skilled nursing facility services are eligible for coverage only if they qualify as reimbursable under Medicare.

Not covered:

1. Services received from a non-network skilled nursing facility.
2. Custodial care and other non-skilled services.
3. Self-care or self-help training (non-medical).
4. Services primarily educational in nature.
5. Vocational and job rehabilitation.
6. Recreational therapy.

7. Health clubs.
8. Physical, occupational or speech therapy services when there is no reasonable expectation of improvement.
9. Voice training.
10. Outpatient rehabilitation services when no medical diagnosis is present.
11. Group physical, speech and occupational therapy.

AA. Substance Use Disorder

Medica covers the diagnosis and treatment of substance use disorders listed in the current edition of *Diagnostic and Statistical Manual of Mental Disorders*.

Substance use disorder benefits

Medica requires prior authorization (approval in advance) before you receive certain substance use disorder services or treatment. To determine if Medica requires prior authorization for a particular service or treatment, please call your plan's designated mental health and substance use disorder provider at the number on the back of your Medica ID card. Please see *Referrals and Prior Authorization* in the *Introduction* for more information about prior authorization requirements and processes.

Your plan's designated mental health and substance use disorder provider will coordinate your network substance use disorder health services. If you require hospitalization, your plan's designated mental health and substance use disorder provider will refer you to one of its hospital providers. **Emergency substance use disorder services are covered benefits.** After receiving emergency substance use disorder inpatient services please notify your plan's designated mental health and substance use disorder provider at the number on the back of your Medica ID card as soon as reasonably possible.

Outpatient substance use disorder services include:

1. Diagnostic evaluations.
2. Outpatient treatment.
3. Medication-assisted treatment (the use of medications in conjunction with counseling and behavioral therapies to help maintain sobriety, prevent relapse, and reduce craving in order to sustain recovery).
4. Non-residential services including intensive outpatient programs, such as day treatment and partial programs, which may include multiple services/modalities and lodging, delivered in an outpatient setting.

Inpatient substance use disorder services include:

1. Room and board.
2. Attending physician services.
3. Hospital or facility-based professional services.

4. Partial program. This may be in a freestanding facility or hospital based. Active treatment is provided through specialized programming with medical/psychological intervention and supervision during program hours. Partial program means a treatment program of 20 hours or more per week and may include lodging.
5. Substance abuse residential treatment services. These are services from a licensed chemical dependency rehabilitation program that provides intensive therapeutic services following detoxification. In addition to room and board, at least 30 hours per week per individual of chemical dependency services must be provided, including group and individual counseling, client education and other services specific to chemical dependency rehabilitation.

Not covered:

1. Substance use disorder services provided by a non-network provider.
2. Services for substance use disorder disorders not listed in the current edition of the *Diagnostic and Statistical Manual of Mental Disorders*.
3. Services, care or treatment that is not medically necessary.
4. Services to hold or confine a person under chemical influence when no medical services are required, regardless of where the services are received.
5. Telephonic substance use disorder treatment services, unless such services are provided in accordance with Medica's telemedicine policies and procedures.
6. Services, including room and board charges, provided by health care professionals or facilities that are not:
 - appropriately licensed,
 - certified, or
 - otherwise qualified under state law to provide substance use disorder services.

This includes, but is not limited to:

- services provided by mental health or substance use disorder providers who are not authorized under state law to practice independently, and
 - services received from a halfway house, therapeutic group home, boarding school or ranch.
7. Room and board charges associated with substance use disorder treatment services providing less than 30 hours a week per individual of chemical dependency services, including:
 - group and individual counseling,
 - client education, and
 - other services specific to chemical dependency rehabilitation.
 8. Services to assist in activities of daily living that do not seek to cure and are performed regularly as a part of a routine or schedule.

9. Drugs provided or administered by a physician or other provider, except those drugs that meet the definition of “professionally administered drugs.” Coverage for “professionally administered drugs” is as described under *Professionally Administered Drugs*. Coverage for drugs is as described in *Prescription Drugs*, *Prescription Specialty Drugs* or otherwise described as a specific benefit elsewhere in this section.

BB. Temporomandibular Joint (TMJ) Disorder

See *Medical-Related Dental*.

CC. Urgent Care

Medica covers urgent care center visits as described in the Benefit Chart section of this Policy. Urgent care is a health care facility whose primary purpose is to offer and provide immediate, short-term medical care for minor medical conditions on a regular or routine basis.

DD. Vision

Medica covers vision services for members under age 19 including frames, lenses or contact lenses when prescribed solely for vision correction, and related fittings as described in the Benefit Chart section of this Policy. Lenses include single vision, bifocal, trifocal, lenticular or progressive with choice of glass or plastic lenses. Medica also covers non-elective contact lenses for the following medical conditions:

- Keratoconus when your vision is not correctable to 20/40 in either or both eyes using standard spectacle lenses.
- High ametropia exceeding -12D or +9D in spherical equivalent.
- Anisometropia of 3D or more.
- When your vision can be corrected three lines of improvement on the visual acuity chart when compared to best corrected standard spectacle lenses.

Please note: benefits are not available for non-elective contact lenses if the member has undergone prior elective corneal surgery, such as radial keratotomy (RK), photorefractive keratectomy (PRK), or LASIK.

Not Covered:

1. Vision services provided by a non-network provider.
2. The purchase, replacement or repair of eyeglasses, eyeglass frames or contact lenses when prescribed solely for vision correction, and their related fittings for members 19 years of age or older.
3. Refractive eye exams for members 19 years of age and older.
4. Refractive eye surgery.

EE. Exclusions

Medica will not provide coverage for any of the services, treatments, supplies or items described below even if it is recommended or prescribed by a physician or it is the only available treatment for your condition. **Important: The list below describes exclusions in addition to the services, supplies and associated expenses already listed as Not covered elsewhere in this Policy.** These include:

1. Services that are not medically necessary. This includes but is not limited to services inconsistent with the medical standards and accepted practice parameters of the community and services inappropriate—in terms of type, frequency, level, setting and duration—to the diagnosis or condition.
2. Services or drugs used to treat conditions that are cosmetic in nature, unless otherwise determined to be reconstructive.
3. Hearing aids (including internal, external or implantable hearing aids or devices) and other devices to improve hearing, and their related fittings, except cochlear implants and their related fittings and except as specifically stated in this Policy.
4. A drug, device or medical treatment or procedure that is investigative.
5. Services or supplies not directly related to care.
6. Autopsies, except as stated in this Policy.
7. Enteral feedings, unless they are the sole source of nutrition; however, enteral feedings of standard infant formulas, standard baby food and regular grocery products used in blenderized formulas are excluded regardless of whether they are the sole source of nutrition.
8. Nutritional and electrolyte substances except as specifically described this Policy.
9. Physical, occupational or speech therapy when there is no reasonable expectation of improvement.
10. Reversal of voluntary sterilization.
11. Personal comfort or convenience items or services.
12. Custodial care, unskilled nursing or unskilled rehabilitation services.
13. Respite or rest care except as otherwise covered in this Policy under *Hospice*.
14. Travel, transportation or living expenses. Certain travel or living expenses may be partially reimbursed when approved by Medica and related to services that have been authorized by Medica as described in *Organ and Bone Marrow Transplants and Other Complex Health Conditions*.
15. Household equipment, fixtures, home modifications and vehicle modifications.
16. Services to treat nicotine addiction except as stated in this Policy under *Prescription Drugs*.

17. Massage therapy, provided in any setting, even when it is part of a comprehensive treatment plan.
18. Routine foot care, except for members with diabetes, blindness, peripheral vascular disease, peripheral neuropathies and significant neurological conditions such as Parkinson's disease, Alzheimer's disease, multiple sclerosis and amyotrophic lateral sclerosis (ALS).
19. Services by persons who are family members or who share your legal residence.
20. Services for which coverage is available under workers' compensation, employer liability or any similar law.
21. Unless requested by Medica, charges for duplicating and obtaining medical records from non-network providers and non-network dentists.
22. Services prohibited by law or regulation.
23. Services to treat injuries that occur while on military duty; and any services received as a result of war, or any act of war (whether declared or undeclared).
24. Exams, other evaluations or other services received solely for the purpose of employment, insurance or licensure.
25. Exams, other evaluations or other services received solely for the purpose of judicial or administrative proceedings or research, except emergency examination of a child ordered by judicial authorities.
26. Non-medical self-care or self-help training.
27. Educational classes, programs or seminars, including but not limited to childbirth classes, except as described in this Policy.
28. Coverage for costs associated with translation of medical records and claims to English.
29. Treatment for superficial veins, also referred to as telangiectasia, thread, reticular or spider veins.
30. Services not received from or under the direction of a physician, except as described in this Policy.
31. Elective, induced abortions, except as medically necessary to protect the life of the mother.
32. Therapeutic acupuncture, dry needling or services billed by an acupuncturist.
33. Services for or related to vision therapy and orthoptic and/or pleoptic training, except as described in this Policy.
34. Sensory Integration including Auditory Integration Training.
35. Orthognathic surgery for cosmetic purposes.
36. Surgery for morbid obesity (also known as bariatric surgery).
37. Charges that are eligible, paid or payable under any Medical payment, personal injury protection, automobile or other coverage that is payable without regard to fault,

including charges that are applied toward any deductible, copayment or coinsurance requirement of such coverage.

38. Private duty nursing services given in a hospital or skilled nursing facility.
39. Services for gender reassignment surgery, sex hormones related to surgery, related preparation and follow-up treatment, and care and counseling, unless medically necessary and prior authorization is obtained from Medica before you receive services.
40. Medical and hospital services that are directly related to a non-covered service will not be paid. If a particular type of service is denied, the bundle of services that accompanies that service, services that would not have been provided but for the provision of the non-covered service, are not covered. Medica does cover emergency services that are received to treat complications of a non-covered service.
41. Services which are not within the scope of licensure or certification of the provider.
42. Non-emergency transportation, except as described in this Policy.
43. Non-emergency services received outside the United States.
44. Services solely for or related to the treatment of snoring.
45. Services provided to treat injuries or illness as a result of committing a felony or attempting to commit a felony.
46. Interpreter services.
47. Charges for interest, mailing and delivery.
48. Drugs provided or administered by a physician or other provider on an outpatient basis, except those drugs that meet the definition of "professionally administered drugs." Coverage for "professionally administered drugs" is as described under *Professionally Administered Drugs*. Coverage for drugs is as described in *Prescription Drugs* and *Prescription Specialty Drugs* or otherwise described as a specific benefit in this Policy.
49. Any form, mixture or preparation of cannabis for medical or therapeutic use and any device or supplies related to its administration.
50. Non medical services (including but not limited to legal services, social rehabilitation, educational services except as described in this Policy, vocational rehabilitation, job placement services, animals and any service or treatment related to animals).
51. Assisted reproductive technology services, including but not limited to: in vitro fertilization (IVF); gamete intrafallopian transfer (GIFT); zygote intrafallopian transfer (ZIFT); tubal embryo transfer; intracytoplasmic sperm injection (ICSI); ova or embryo acquisition, retrieval, donation, preservation and/or storage; and/or any conception that occurs outside the woman's body.
52. Services for intrauterine insemination (IUI).
53. Collection, retrieval, purchase, freezing and/or storage of sperm or eggs.
54. Services related to adoption.

55. Drugs, supplies, biologics and biosimilars that have not been approved by the U.S. Food and Drug Administration (FDA).
56. Medical devices that have not been approved by the U.S. Food and Drug Administration (FDA), other than those granted a humanitarian device exemption.
57. New to market biologics, biosimilars and professionally administered drugs. Biologics, biosimilars and professionally administered drugs recently approved by the FDA (including approval for a new indication) will not be covered until they are reviewed and approved for coverage by Medica.
58. Professionally administered drugs that do not meet both of the following requirements: (a) administered in conjunction with a covered benefit and (b) administered by a physician acting within the scope of the provider's license.

IV. Coordination of Benefits

A. Applicability

The Coordination of Benefits (COB) provision applies when a person has health care coverage under more than one plan. Plan is defined below.

If this COB provision applies, the order of benefit determination rules should be looked at first. Those rules determine whether the benefits of this plan are determined before or after those of another plan.

The benefits of this plan:

1. Shall not be reduced when, under the order of benefit determination rules, this plan determines its benefits before another plan; but
2. May be reduced when, under the order of benefits determination rules, another plan determines its benefits first. This reduction is described in Section D. Effect on the Benefits of This Plan.

B. Definitions

- A. Plan is any of these which provides benefits or services for, or because of, medical or dental care or treatment:
 1. Group insurance or group-type coverage, whether insured or uninsured. This includes prepayment, group practice or individual practice coverage. It also includes coverage other than school accident-type coverage.
 2. Coverage under a governmental plan, or coverage required or provided by law. This does not include a state plan under Medicaid (Title XIX, Grants to States for Medical Assistance Programs, of the United States Social Security Act). Each contract or other arrangement for coverage under (1) or (2) is a separate plan. Also, if an arrangement has two (2) parts and COB rules apply only to one (1) of the two (2), each of the parts is a separate plan.
- B. This plan is the part of the group contract that provides benefits for health care expenses.
- C. Primary plan/secondary plan. The order of benefit determination rules state whether this plan is a primary plan or secondary plan as to another plan covering the person. When this plan is a primary plan, its benefits are determined before those of the other plan and without considering the other plan's benefits. When this plan is a secondary plan, its benefits are determined after those of the other plan and may be reduced because of the other plan's benefits. When there are more than two (2) plans covering the person, this plan may be a primary plan as to one (1) or more other plans and may be a secondary plan as to a different plan(s).
- D. Allowable expense means a necessary, reasonable and customary item of expense for health care, when the item of expense is covered at least in part by one (1) or more

plans covering the person for whom the claim is made. The difference between the cost of a private hospital room and the cost of a semiprivate hospital room is not considered an allowable expense under this definition unless the patient's stay in a private hospital room is medically necessary either in terms of generally accepted medical practice or as specifically defined in the plan. When a plan provides benefits in the form of services, the reasonable cash value of each service rendered will be considered both an allowable expense and a benefit paid. When benefits are reduced under a primary plan because a covered person does not comply with the plan provisions, the amount of that reduction will not be considered an allowable expense. Examples of these provisions are those related to second surgical opinions, precertification of admissions or services, and preferred provider arrangements.

- E. Claim determination period means a calendar year. However, it does not include any part of a year during which a person has no coverage under this plan or any part of a year before the date this COB provision or similar provision takes effect.

C. Order of benefit determination rules

- A. **General.** When there is a basis for a claim under this plan and another plan. This plan is a secondary plan which has its benefits determined after those of the other plan, unless:
1. The other plan has rules coordinating its benefits with those of this plan; and
 2. Both those rules and this plan's rules, in this subsection, item B., require that this plan's benefits be determined before those of the other plan.
- B. **Rules.** This plan determines its order of benefits using the first of the following rules which applies:
1. **Nondependent/dependent.** The benefits of the plan which covers the person as an employee, member or subscriber (that is, other than as a dependent) are determined before those of the plan which covers the person as a dependent; except that, if the person is also a Medicare beneficiary, and as a result of the rule established by Title XVIII of the Social Security Act and implementing regulations, Medicare is:
 - a. Secondary to the plan covering the person as a dependent; and
 - b. Primary to the plan covering the person as other than a dependent (for example, a retired employee), then the benefits of the plan covering the person as a dependent are determined before those of the plan covering that person as other than a dependent.
 2. **Dependent child/parents not separated or divorced. Except as stated in this subsection, item 3 below, when this plan and another plan cover the same child as a dependent of different persons, called parents:**
 - a. The benefits of the plan of the parent whose birthday falls earlier in a year are determined before those of the plan of the parent whose birthday falls later in that year; but

- b. If both parents have the same birthday, the benefits of the plan which covered one (1) parent longer are determined before those of the plans which covered the other parent for a shorter period of time. However, if the other plan does not have the rule described previously in this subsection, this item 2. (a) or (b) and if, as a result, the plans do not agree on the order of benefits, the rule in the other plan will determine the order of benefits.
3. ***Dependent child/separated or divorced.*** If two (2) or more plans cover a person as a dependent child of divorced or separated parents, benefits for the child are determined in this order:
 - a. First, the plan of the parent with custody of the child;
 - b. Then, the plan of the spouse of the parent with the custody of the child; and
 - c. Finally, the plan of the parent not having custody of the child. However, if the specific terms of a court decree state that one (1) of the parents is responsible for the health care expense of the child and the entity obligated to pay or provide the benefits of the plan of that parent or spouse of the other parent has actual knowledge of those terms, the benefits of that plan are determined first. The plan of the other parent shall be the secondary plan. This paragraph does not apply with respect to any claim determination period or plan year during which any benefits are actually paid or provided before the entity has that actual knowledge.
4. Joint custody. If the specific terms of a court decree state that the parents shall share joint custody, without stating that one (1) of the parents is responsible for the health care expenses of the child, the plans covering the child shall follow the order of benefit determination rules outlined in item 2 above, Dependent child/separated or divorced.
5. Active/inactive employee. The benefits of a plan which covers a person as an employee who is neither laid off nor retired are determined before those of a plan which covers that person as a laid off or retired employee. The same would hold true if a person is a dependent of a person covered as a retiree and an employee. If the other plan does not have this rule and if, as a result, the plans do not agree on the order of benefits, this rule is ignored.
6. Continuation coverage. If a person whose coverage is provided under a right of continuation pursuant to federal or state law also is covered under another plan, the following shall be the order of benefit determination:
 - a. First, the benefits of a plan covering the person as an employee, member or subscriber (or as that person's dependent); and
 - b. Second, the benefits under the continuation coverage. If the other plan does not have the rule described here and if, as a result, the plans do not agree on the order of benefits, this rule is ignored.
7. ***Longer/shorter length of coverage.*** If none of the previous rules determines the order of benefits, the benefits of the plan which covered an employee, member

or subscriber longer are determined before those of the plan which covered that person for the shorter term.

D. Effect on the benefits of this plan

- A. When This Section Applies.** This section D. applies when, in accordance with section C., Order of Benefit Determination Rules, this plan is a secondary plan as to one (1) or more other plans. In that event the benefits of this plan may be reduced under this section. Other plan(s) are referred to as the other plans in this subsection, item B. immediately following.
- B. Reduction in this plan's benefits.** The benefits of this plan will be reduced when the sum of:
1. The benefits that would be payable for the allowable expense under this plan in the absence of this COB provision; and
 2. The benefits that would be payable for the allowable expenses under the other plans, in the absence of provisions with a purpose like that of this COB provision, whether or not claim is made, exceeds those allowable expenses in a claim determination period. In that case, the benefits of this plan will be reduced so that they and the benefits payable under the other plans do not total more than those allowable expenses. When the benefits of this plan are reduced as described previously, each benefit is reduced in proportion. It is then charged against any applicable benefit limit of this plan.

E. Right to receive and release needed information

Certain facts are needed to apply these COB rules. (Insurer) has the right to decide which facts it needs. It may get needed facts from or give them to any other organization or person. (Insurer) need not tell, or get the consent of, any person to do this. Each person claiming benefits under this plan must give (insurer) any facts it needs to pay the claim.

F. Facility of payment

A payment made under another plan may include an amount which should have been paid under This Plan. If it does, (insurer) may pay that amount to the organization which made the payment. That amount will then be treated as though it were a benefit paid under this plan. (Insurer) will not have to pay that amount again. The term, payment made includes providing benefits in the form of services, in which case payment made means reasonable cash value of the benefits provided in the form of services.

G. Right of recovery

If the amount of the payments made by (insurer) is more than it should have paid under this COB provision, it may recover the excess from one (1) or more of:

- A. The person it has paid or for whom it has paid;
- B. Insurance companies; or
- C. Other organizations. The amount of the payments made includes the reasonable cash value of any benefits provided in the form services.

Medica will not request a refund or offset against a claim submitted by a provider more than twelve months after Medica has paid a claim except in cases of fraud or misrepresentation by the health care provider.

H. Coordination for Medicare-eligible individuals

The benefits under this Policy are not intended to duplicate any benefits to which members are, or would be, eligible for under Medicare Part B. If we have covered a service under this Policy, any sums payable under Medicare Part B for that service must be paid to Medica. If we need any consents, releases, assignments and other documents, complete and return to us those documents to make sure we receive reimbursement by Medicare Part B.

Medicare is primary if you are enrolled in Medicare in the following circumstances:

- You are at least 65 years old;
- You are less than 65 years old, but are covered by Medicare because of disability or end stage renal disease.

If you are eligible for Medicare Part B, we will consider you covered by Medicare Part B, whether or not you are actually enrolled in Medicare Part B. We will reduce your benefits under this Policy by the amount you would have been eligible for under Medicare Part B if you had actually enrolled in Medicare Part B. You should enroll in Medicare Part B when you are eligible to avoid large out of pocket expenses.

The provisions of this section will apply to the maximum extent permitted by federal or state law. We will not reduce the benefits due any insured where federal law requires that we determine our benefits for that insured without regard to the benefits available under Medicare Part B.

V. **Grievances**

This section describes what to do if you have a grievance or would like to file a grievance regarding a decision made by Medica. You may also have grievance rights under regulations implementing the Patient Protection and Affordable Care Act (PPACA).

You may call Customer Service at the number on the back of your Medica ID card or by writing to the address below in *First level internal review*, 1.a. You also may contact the Missouri Department of Commerce and Insurance at P.O. Box 690, Jefferson City, MO, 65101-0690, tel: 800-726-7390, fax: 573-526-4898 or online: insurance.mo.gov.

Grievance: Means any grievance against Medica, submitted by you or another person on your behalf, that is not the subject of litigation. Grievances may involve, but are not limited to, the scope of coverage for health care services; retrospective denials or limitations of payment for services; denials of an adverse determination to a prior authorization request, concurrent review, or other utilization review activity; eligibility issues; denials, cancellations, or non-renewals of coverage; administrative operations; and the quality, timeliness and appropriateness of health care services rendered. If the grievance is from an applicant, the grievance must relate to the application. If the grievance is from a former member, the grievance must relate to services received during the time the individual was a member.

Medical Necessity Review: Means Medica's evaluation of the necessity, appropriateness and efficacy of the use of health care services, procedures and facilities, for the purpose of determining the medical necessity of the service or admission, and Medica's evaluation of whether the health care service or admission is investigative.

Filing a grievance may require that Medica review your medical records as needed to resolve your grievance.

You may appoint an authorized representative to make a grievance on your behalf. You may be required to sign an authorization which will allow Medica to release confidential information to your authorized representative and allow them to act on your behalf during the grievance process.

Upon request, Medica will assist you with completion and submission of your written grievance. Medica will also complete a grievance form on your behalf and mail it to you for your signature upon request.

At any time during the grievance process, you have a right to submit any information or testimony that you want Medica to consider and to review any information that Medica relied on in making its decision.

In addition to directing grievances to Customer Service as described in this section, you may direct grievances at any time to the Director of Insurance at the telephone number listed at the beginning of this section.

First level internal review

You may direct any question or grievance to Customer Service by calling the number on the back of your Medica ID card or by writing to the address listed below.

1. Grievances that do not involve a medical necessity review by Medica:

- a. For an oral grievance, if you determine that Medica's decision is partially or wholly adverse to you, Medica will provide you with a grievance form to submit your grievance in writing. Mail the completed form to:

Customer Service

Route CP595

PO Box 9310

Minneapolis, MN 55440-9310
 - b. Your written grievance will be considered an internal review. Your grievance must be made within one year following receipt of Medica's initial decision and may be made orally or in writing. Within ten working days of receiving your written grievance, Medica will acknowledge receipt of your grievance in writing. Medica will complete an investigation into your grievance within 20 working days after receipt of your written grievance. If Medica cannot complete the investigation within 20 working days, Medica will notify you in writing on or before the twentieth working day, and Medica will complete the investigation within an additional 30 working days, but no later than 60 calendar days. Within 5 working days after the investigation is completed, a qualified individual associated with Medica but not involved in the circumstances giving rise to the grievance or its investigation will decide on the appropriate resolution of the grievance and will notify you in writing of Medica's decision. Within 15 working days after the investigation is completed, Medica will notify the person who submitted the grievance of Medica's resolution of the grievance.
2. Grievances that involve a medical necessity review by Medica:
- a. Your grievance must be made within 180 days following receipt of Medica's notification of its initial decision and may be made orally or in writing.
 - b. Within ten working days of receiving your written grievance, Medica will acknowledge receipt of your grievance in writing.
 - c. Medica will complete an investigation into your grievance within 20 working days after receipt of your written grievance. If Medica cannot complete the investigation within 20 working days, Medica will notify you in writing on or before the twentieth working day, and Medica will complete the investigation within an additional thirty working days, but no later than 60 calendar days.
 - d. Within 5 working days after the investigation is completed, a qualified individual associated with Medica but not involved in the circumstances giving rise to the grievance or its investigation will decide on the appropriate resolution of the grievance and will notify you in writing of Medica's decision. Within 15 working days after the investigation is completed, Medica will notify the person who submitted the grievance of Medica's resolution of the grievance.
 - e. When an initial decision by Medica does not grant a prior authorization request made before or during an ongoing service, Medica will provide written notice of its internal review decision to you and your attending provider, when applicable, within 30 calendar days from receipt of your grievance. If your request does not contain all the information Medica needs to make a determination, Medica may request additional

information. Medica will notify you of its decision within 15 days of receiving the additional information. If you do not respond to Medica's request within 45 days, your claim may be denied.

- f. When an initial decision by Medica does not grant a prior authorization request made before or during an ongoing service, and your attending provider believes that Medica's decision warrants an expedited review you or your attending provider will have the opportunity to request an expedited review by telephone. Alternatively, if Medica concludes that a delay could seriously jeopardize your life, health or ability to regain maximum function, or could subject you to severe pain that cannot be adequately managed without the care or treatment you are requesting, Medica will process your claim as an expedited review. In such cases, Medica will notify you and your attending provider by telephone of its decision no later than 72 hours after receiving the request. Medica shall provide written confirmation of our decision within three working days of the providing the notification of decision by telephone.
- g. If Medica's internal review decision upholds the initial decision made by Medica, you have a right to submit a written request for external review as described in this section.
- h. If your grievance involves Medica's decision to reduce or terminate an ongoing course of treatment that Medica previously approved, the treatment will be covered pending the outcome of the review process.

Second level external review

If you consider Medica's decision upon completion of your internal review to be partially or wholly adverse to you, you may submit a written request for external review of Medica's decision if your case involves medical necessity, investigative/experimental procedures or a rescission of a policy determination. This process is coordinated by the Missouri Department of Commerce and Insurance. The Missouri Department of Commerce and Insurance will process your grievance as any other member grievance; however, if the grievance remains unresolved after completion of the Missouri Department of Commerce and Insurance review, it will be forwarded to an independent external review organization.

You should submit your request to the Missouri Department of Commerce and Insurance at P.O. Box 690, Jefferson City, MO, 65101-0690, tel: 800-726-7390, fax: 573-526-4898 or online: insurance.mo.gov.

You must submit your written request for external review within four months from the date you receive Medica's decision. You, your designated representative, and /or your provider may submit additional information to be reviewed by the external review organization. The external review organization will render an opinion to the Missouri Department of Commerce and Insurance within 20 calendar days. The external review organization may request additional time for its review, but not to exceed 5 calendar days. The Missouri Department of Commerce and Insurance will notify you in writing of its decision within 25 calendar days, but no later than 45 calendar days, after the receipt of the request for external review. If an expedited review is requested and approved, a decision will be provided to you by the Missouri Department of Commerce and Insurance within 72 hours.

You may make a verbal or written request for an expedited external review at the same time you request an expedited internal review if (a) waiting the standard 30 calendar days might jeopardize

your life, health or ability to regain maximum function; or (b) the standard timeframe would subject you to severe pain that cannot be managed without the care or treatment you are requesting. The review organization will notify you of its decision no more than 72 hours after the date it receives a request for an expedited review that meets the reviewability requirements.

Civil action

No action at law or in equity shall be brought to recover on this policy prior to the expiration of sixty days after written proof of loss has been furnished in accordance with the requirements of this policy. No such action shall be brought after the expiration of three years after the time written proof of loss is required to be furnished.

VI. Ending Coverage

This section describes when coverage ends under this Policy.

When coverage ends

Unless otherwise specified in this Policy, coverage ends the earliest of the following:

1. The date Medica notifies you that Medica will cease doing business or discontinue a particular product. Coverage will end on the last day of a month. (To cease doing business means to discontinue issuing new individual health plans and to refuse to renew all of Medica's existing individual health plans.)
2. The end of the month for which the subscriber last paid the premium due, except as specifically described in item 3 below concerning subscribers receiving an advance premium tax credit.
3. If the subscriber is receiving an advance premium tax credit, the end of the first month for which the subscriber failed to pay the subscriber's share of all premiums due during the grace period. For example, if you fail to pay your share of the premium in March you have until the end of May (a 3 month grace period) to pay your premiums due during the grace period in full. If you do not pay all premiums for March, April and May, your coverage will be terminated as of the end of March.
4. For coverage purchased outside the Marketplace, the end of the month following the date the subscriber requests that coverage end. Written request for termination of the subscriber's and/or dependents' coverage must be received by Medica at least 31 days before the date of termination. However, the effective date of such termination must be the end of the month, except as provided in item 5 below. Any refund of premium shall be mailed to the subscriber upon receipt of this notice by Medica.
5. If the subscriber enrolled through the Marketplace, the date on which the subscriber requests termination if the subscriber has given the Marketplace at least 14 days' notice before a requested termination date. If the subscriber has not provided the Marketplace with at least 14 days' notice of a requested termination, termination will be effective 14 days after notice is received by the Marketplace. Any refund of premium shall be mailed to the subscriber upon receipt of the termination instructions by Medica.
6. If the subscriber terminates this Policy within the first ten days of receiving it, coverage shall terminate retroactive to the effective date of this Policy.
7. The end of the month following the date 31 days after we notify you that coverage will end because you do not reside in your plan's service area, provided the notification is made within one year following the date Medica was provided written notification of your address change. However, Medica may approve other arrangements.
8. The end of the month following the date you enter active military duty for more than 31 days. Upon completion of active military duty, your coverage will be reinstated if you notify Medica within 90 days after removal from active military duty.

9. When the subscriber is enrolled under this Policy, coverage for dependents will end the date the subscriber's coverage ends.
10. The date of the death of the member. When the subscriber is enrolled under this Policy and in the event of the subscriber's death, coverage for the subscriber's dependents will terminate the end of the month in which the subscriber's death occurred.
11. For a spouse, the end of the month following the date of divorce.
12. For a dependent child, the end of the month in which the child is no longer eligible as a dependent as specified in this Policy.
13. The date specified by Medica in written notice to you that coverage ended due to fraud or intentional misrepresentation of a material fact. If coverage ends due to fraud or intentional misrepresentation of a material fact, coverage will be retroactively terminated at Medica's discretion to the original date of coverage or the date on which the fraudulent act took place. After two years, coverage can only be retroactively terminated for fraud. Fraud includes but is not limited to:
 - a. Knowingly providing Medica with false material information such as information related to your eligibility or another person's eligibility or status as a dependent; or
 - b. Permitting the use of your member identification card by any unauthorized person; or
 - c. Using another person's member identification card; or
 - d. Submitting fraudulent claims; or
 - e. Engaging in any fraudulent activity related to your eligibility for coverage under this Policy.
14. If you are enrolled in a Catastrophic Plan, the end of the policy year in which the subscriber covered under the plan is more than 30 years of age, or your hardship exemption issued by the Marketplace expires.
15. For coverage purchased through the Marketplace, on the date established by the Marketplace when the Marketplace makes a determination that you are no longer eligible for coverage under this Policy.
16. For coverage purchased through the Marketplace, on the date your plan is no longer certified or offered through the Marketplace.
17. The date immediately preceding the effective date of new coverage selected by a member during an applicable open or special enrollment period.

Upon the death of the subscriber or if the subscriber and/or member terminates this Policy due to eligibility for Medicare, dissolution of marriage or for a child that is no longer eligible as a dependent as specified in this Policy, the remaining members may choose to continue coverage under this Medica plan.

VII. Definitions

In this Policy (and in any amendments), some words have specific meanings. Within each definition, you may note bold words. These words also are defined in this section.

Advance premium tax credit (APTC). The advance premium assistance credit available under Internal Revenue Code section 36B, as determined by the Marketplace, for individuals who meet certain income requirements, as determined by the Marketplace.

Approved clinical trial. A phase I, phase II, phase III or phase IV clinical trial that is conducted in relation to the prevention, detection or treatment of cancer or other life-threatening condition, and meets the criteria described below:

The clinical trial must be described in one of the following subparagraphs:

- a. The study or investigation is conducted under an investigational new drug application reviewed by the U.S. Food and Drug Administration.
- b. The study or investigation is a drug trial that is exempt from having such an investigational new drug application.
- c. The study or investigation is approved or funded by one of the following: (i) the National Institutes of Health (NIH), the Centers for Disease Control and Prevention, the Agency for Health Care Research and Quality, the Centers for Medicare and Medicaid Services or cooperating group or center of any of the entities described in this item; (ii) a cooperative group or center of the United States Department of Defense or the United States Department of Veterans Affairs; (iii) a qualified non-governmental research entity identified in the guidelines issued by the NIH for center support grants; (iv) the United States Departments of Veterans Affairs, Defense or Energy if the trial has been reviewed or approved through a system of peer review determined by the secretary to: (a) be comparable to the system of peer review of studies and investigations used by the NIH, and (b) provide an unbiased scientific review by qualified individuals who have no interest in the outcome of the review; or (v) An institutional review board in Missouri that has an appropriate assurance approved by the Department of Health and Human Services assuring compliance with and implementation of regulations for the protection of human subjects (45 CFR 46).

Benefits. The health services or supplies (described in this Policy and any subsequent amendments) approved by Medica as eligible for coverage.

Biologics. Any of a wide range of products designed to replicate natural substances in the body, including, but not limited to, products produced using biotechnology. Biologics include, but are not limited to, vaccines, blood and blood components or products, cellular and gene therapy products, tissue and tissue products, allergenics, recombinant therapeutic proteins, monoclonal antibodies, cytokines, growth factors, immunomodulators and additional biological products regulated by the U.S. Food and Drug Administration and related agencies.

Biosimilar. A biosimilar is a biological product that is highly similar to and has no clinically meaningful differences from an existing FDA-approved reference product.

Claim. An invoice, bill or itemized statement for **benefits** provided to you.

Coinsurance. The percentage amount you must pay to the **provider** for **benefits** received.

The **coinsurance** amount is typically based on the lesser of the:

1. Charge billed by the **provider** (i.e., retail); or
2. Negotiated amount that the provider has agreed to accept as full payment for the benefit (i.e., wholesale).

When the wholesale amount is not known nor readily calculated at the time the **benefit** is provided, Medica uses an amount to approximate the wholesale amount. For services from some **network providers**, however, the **coinsurance** is based on the **provider's** retail charge. The **provider's** retail charge is the amount that the **provider** would charge to any patient, whether or not that patient is a Medica **member**.

In addition, for the **network** pharmacies described in *Prescription Drugs* and *Prescription Specialty Drugs*, the calculation of **coinsurance** amounts as described above do not include possible reductions for any volume purchase discounts or price adjustments that Medica may later receive related to certain **prescription drugs** and pharmacy services.

The **coinsurance** may not exceed the charge billed by the **provider** for the **benefit**.

Copayment. The fixed dollar amount you must pay to the **provider** for **benefits** received.

When you receive eligible health services from a **network provider** and a **copayment** applies, you pay the lesser of the charge billed by the **provider** for the **benefit** (i.e., retail) or your **copayment**. Medica pays any remaining amount according to the written agreement between Medica and the **provider**. The **copayment** may not exceed the retail charge billed by the **provider** for the **benefit**.

Cosmetic. Services and procedures that improve physical appearance but do not correct or improve a physiological function, and that are not **medically necessary**, unless the service or procedure meets the definition of **reconstructive**.

Custodial care. Services to assist in activities of daily living that do not seek to cure, are performed regularly as a part of a routine or schedule, and, due to the physical stability of the condition, do not need to be provided or directed by a skilled medical professional. These services include help in walking, getting in or out of bed, bathing, dressing, feeding, using the toilet, preparation of special diets and supervision of medication that can usually be self-administered.

Deductible. The fixed dollar amount you must pay for eligible services or supplies before **claims** for health services or supplies received from network providers are reimbursable as **benefits** under this Policy.

Amounts reimbursed or paid by a provider or manufacturer, including manufacturer coupons, rebates, coupon cards, debit cards or other forms of reimbursement or payment on your behalf for a product or service, will not apply toward your deductible.

Dependent. Unless otherwise specified in this Policy:

1. The **subscriber's domestic partner** or spouse
2. A child of the **subscriber**, the **subscriber's domestic partner** or spouse who is a:

- a. Natural or adopted child
- b. Child **placed for adoption** with the **subscriber**, the **subscriber's domestic partner** or spouse
- c. Stepchild
3. An unmarried grandchild who is dependent upon and resides continuously from birth with the **subscriber**, **subscriber's domestic partner** or the **subscriber's** spouse.
4. A child under legal guardianship of the **subscriber**, the **subscriber's** domestic partner or **subscriber's** spouse. However, Medica may request that the **subscriber** provide satisfactory proof of guardianship. See *Extending a child's eligibility* in *Eligibility And Enrollment* for details regarding **dependent** limiting ages.

Designated facility. A **network hospital** that Medica has authorized to provide certain **benefits** to **members**, as described in this Policy.

Developmental or physical disability. A severe chronic disability that:

1. Is attributable to cerebral palsy, epilepsy, or any other condition other than mental illness or autism spectrum disorder which results in impairment of general intellectual functioning or adaptive behavior and requires treatment or services;
2. Manifests before the individual reaches age nineteen;
3. Is likely to continue indefinitely; and
4. Results in substantial functional limitations in three or more of the following areas of major life activities:
 - a. Self-care;
 - b. Understanding and use of language;
 - c. Learning
 - d. Mobility;
 - e. Self-Direction; or
 - f. Capacity for independent living.

Diagnosis of autism spectrum disorders or developmental or physical disability. Medically necessary assessments, evaluations, or tests in order to diagnose whether an individual has an autism spectrum disorder or a developmental or physical disability.

Domestic partner. An adult who:

1. Is in a committed and mutually exclusive relationship, jointly responsible for the **subscriber's** welfare and financial obligations; and
2. Resides with the **subscriber** in the same principal residence and intends to do so permanently; and
3. Is at least 18 years of age and unmarried; and
4. Is not a blood relative of the **subscriber**; and
5. Is mentally competent.

Emergency or emergency medical condition. The sudden and, at the time, unexpected onset of a health condition that manifests itself by symptoms of sufficient severity, regardless of the final diagnosis that is given, that would lead a prudent lay person, possessing an average knowledge of medicine and health, to believe that immediate medical care is required, which may include, but shall not be limited to:

1. Placing the person's health in significant jeopardy;
2. Serious impairment to a bodily function;
3. Serious dysfunction of any bodily organ or part;
4. Inadequately controlled pain; or
5. With respect to a pregnant woman who is having contractions:
 - a. That there is inadequate time to effect a safe transfer to another hospital before delivery; or
 - b. That transfer to another hospital may pose a threat to the health or safety of the woman or unborn child.

Emergency service. A health care item or service furnished or required to evaluate and treat an emergency medical condition, which may include, but shall not be limited to, health care services that are provided in a licensed hospital's emergency facility by an appropriate provider.

Enrollment date. The date of the **member's** first day of coverage under this Policy.

Extended hours home care. Extended hours home care (skilled nursing services) is continuous and complex skilled nursing services greater than two consecutive hours per day provided in the member's home. The intent of extended hours home care is to assist the member with complex, direct, skilled nursing care, to develop caregiver competencies through training and education, and to optimize the member's health status and outcomes. The skilled nursing tasks must be required so frequently that the need is continuous. The duration of extended hours home care is temporary in nature and is not intended to be provided on a permanent ongoing basis. Extended hours home care is sometimes also called private duty nursing.

Genetic testing. The analysis of human DNA, RNA, and chromosomes and those proteins and metabolites used to detect heritable or somatic disease-related genotypes or karyotypes for clinical purposes. A genetic test must be generally accepted in the scientific and medical communities as being specifically determinative for the presence, absence or mutation of a gene or chromosome in order to qualify under this definition. Genetic test does not include a routine physical examination or a routine analysis, including a chemical analysis, of body fluids unless conducted specifically to determine the presence, absence or mutation of a gene or chromosome.

Habilitative care. Health care services are considered habilitative when they are provided to help a person who has not learned or acquired a particular skill or function for daily living to learn, improve or keep such skill or function, as long as measurable progress can be documented.

Health Insurance Marketplace. A governmental or non-profit entity established as an Exchange, also referred to in this Policy as the "Marketplace," pursuant to the Affordable Care Act to make qualified health plans available to individuals and small employers.

Home health aide services. Part time or intermittent services to help you with activities of daily living.

Hospital. A licensed facility that provides diagnostic, medical, therapeutic, rehabilitative and surgical services by, or under the direction of, a **physician** and with 24-hour R.N. nursing services. The **hospital** is not mainly a place for rest or **custodial care**, and is not a nursing home or similar facility.

HSA-compliant high deductible health plan. A plan that complies with the requirements of Internal Revenue Code section 223 that allows an individual to contribute to a health savings account.

Indian. Indians as defined in section 4 of the Indian Health Care Improvement Act.

Inpatient. An uninterrupted stay, following formal admission to a **hospital, skilled nursing facility** or licensed acute care facility.

Investigative. As determined by Medica, a drug, device, diagnostic or screening procedure, or medical treatment or procedure is **investigative** if reliable evidence does not permit conclusions concerning its safety, effectiveness or effect on health outcomes. Medica will make its determination based upon an examination of the following reliable evidence, none of which shall be determinative in and of itself:

1. Whether there is final approval from the appropriate government regulatory agency, if required, including whether the drug or device has received final approval to be marketed for its proposed use by the United States Food and Drug Administration (FDA), or whether the treatment is the subject of ongoing Phase I, II or III trials;
2. Whether there are consensus opinions and recommendations reported in relevant scientific and medical literature, peer-reviewed journals or the reports of clinical trial committees and other technology assessment bodies; and
3. Whether there are consensus opinions of national and local health care **providers** in the applicable specialty or subspecialty that typically manages the condition as determined by a survey or poll of a representative sampling of these **providers**.

Notwithstanding the above, a drug being used for an indication or at a dosage that is an accepted off-label use for the treatment of cancer will not be considered by Medica to be **investigative**. Medica will determine if a use is an accepted off-label use based on published reports in authoritative peer-reviewed medical literature, clinical practice guidelines or parameters approved by national health professional boards or associations and entries in any authoritative compendia as identified by the Medicare program for use in the determination of a Medically accepted indication of drugs and biologicals used off-label.

Medically necessary. Diagnostic testing and medical treatment, consistent with the diagnosis of and prescribed course of treatment for your condition, and preventive services. **Medically necessary** care must meet the following criteria:

1. Be consistent with the medical standards and accepted practice parameters of the community as determined by health care **providers** in the same or similar general specialty as typically manages the condition, procedure or treatment at issue; and
2. Be an appropriate service, in terms of type, frequency, level, setting and duration, to your diagnosis or condition; and
3. Help to restore or maintain your health; or

4. Prevent deterioration of your condition; or
5. Prevent the reasonably likely onset of a health problem or detect an incipient problem.

Member. A person who is enrolled under this Policy and on whose behalf the premium is being paid. In this Policy, the words you, your or yourself refer to the member.

Mental disorder. A physical or mental condition having an emotional or psychological origin, as defined in the current edition of the *Diagnostic and Statistical Manual of Mental Disorders* (DSM).

Missouri resident. A person who lives in Missouri, and intends to reside in Missouri, or has entered Missouri with a job commitment or is seeking employment in Missouri.

Network. A term used to describe a **provider** (such as a **hospital, physician**, home health agency, **skilled nursing facility** or pharmacy) that has entered into a written agreement with Medica or has made other arrangements with Medica to provide **benefits** to you. The participation status of **providers** will change from time to time.

The Medica **network provider** directory is available without charge.

Network access area. Used to define areas where there are Medica contracted providers outside the service area for a specific product.

Non-network. A term used to describe a **provider** not under contract as a **network provider**.

Non-network provider reimbursement amount. The amount that Medica will pay to a **non-network provider** for each benefit is based on one of the following, as determined by Medica:

1. A percentage of the amount Medicare would pay for the service in the location where the service is provided. Medica generally updates its data on the amount Medicare pays within 30 – 60 days after the Centers for Medicare and Medicaid Services updates its Medicare data; or
2. A percentage of the **provider's** billed charge; or
3. A nationwide provider reimbursement database that considers prevailing reimbursement rates and/or marketplace charges for similar services in the geographic area in which the service is provided; or
4. An amount agreed upon between Medica and the **non-network provider**.

Contact Customer Service for more information concerning which method above pertains to your services, including the applicable percentage if a Medicare-based approach is used.

For certain **benefits**, you must pay a portion of the **non-network provider reimbursement amount** as a **copayment, deductible or coinsurance**.

In addition, if the amount billed by the **non-network provider** is greater than the **non-network provider reimbursement amount**, *the non-network provider will likely bill you for the difference*. This difference may be substantial, and it is in addition to any **copayment, coinsurance or deductible** amount you may be responsible for according to the terms described in this Policy. As a result, the amount you will be required to pay for services received from a **non-network provider** will likely be much higher than if you had received services from a **network provider**.

Non-skilled care. Care that does not require skilled nursing or rehabilitation staff to manage, observe or evaluate your care. Any service that could be safely performed by a non-medical person (or yourself) without the supervision of a nurse is considered non-skilled care.

Pharmacy care. Medications used to address symptoms of an autism spectrum disorder or a developmental or physical disability prescribed by a licensed physician, and any health-related services deemed medically necessary to determine the need or effectiveness of the medications only to the extent that such medications are included in the insured's health benefit plan.

Physician. A Doctor of Medicine (M.D.), Doctor of Osteopathy (D.O.), Doctor of Podiatry (D.P.M.), Doctor of Optometry (O.D.) or Doctor of Chiropractic (D.C.) practicing within the scope of his or her licensure.

Placed for adoption. The assumption and retention of the legal obligation for total or partial support of the child in anticipation of adopting such child.

(Eligibility for a child **placed for adoption** with the **subscriber** ends if the placement is interrupted before legal adoption is finalized and the child is removed from placement.)

Premium. The monthly payment required to be paid by you for coverage under this Policy.

Prescription drug. A drug approved by the FDA for the prescribed use and route of administration.

Prescription insulin drugs. Prescription drugs that contain insulin and are used to treat diabetes.

Preventive health services. The following are considered **preventive health services**:

1. evidence-based items or services that have in effect a rating of “A” or “B” in the current recommendations of the United States Preventive Services Task Force;
2. immunizations for routine use that have in effect a recommendation from the Advisory Committee on Immunization Practices of the Centers for Disease Control and Prevention with respect to the **members** involved, and immunizations of a child from birth to five years of age as provided by department of health and senior services regulations;
3. with respect to **members** who are infants, children and adolescents, evidence-informed preventive care and screenings provided for in the comprehensive guidelines supported by the Health Resources and Services Administration;
4. with respect to members who are women, such additional preventive care and screenings not described in paragraph (1) as provided for in comprehensive guidelines supported by the Health Resources and Services Administration (including Food and Drug Administration approved contraceptive methods, sterilization procedures and related patient education and counseling).

Contact Customer Service for information regarding specific **preventive health services** and services that are rated “A” or “B”, and services that are included in guidelines supported by the Health Resources and Services Administration.

Primary care provider. A **provider** who has a majority of his or her practice in general pediatrics, internal medicine, obstetrics/gynecology, family practice, or general medicine or a provider providing services at a **retail health clinic**.

Professionally administered drugs. Professionally administered drugs must be, as determined by Medica, typically administered or directly supervised by a qualified provider or a licensed/certified health professional. Medica generally considers drugs that require intravenous infusion or injection, intrathecal infusion or injection, intramuscular injection or intraocular injection, as well as drugs that, according to the manufacturer’s recommendations, must typically be administered by a health care provider, to be professionally administered drugs.

Provider. A health care professional or facility licensed, certified or otherwise qualified under state law to provide health services.

Qualified health plan. A health plan that meets the requirements of federal law and is certified by the Marketplace as meeting the requirements.

Reasonable expectation of improvement. A reasonable expectation that the member's condition will improve over a predictable period of time according to generally accepted standards in the medical community.

Reconstructive. Surgery to rebuild or correct a:

1. Body part when such surgery is incidental to or following surgery resulting from injury, sickness or disease of the involved body part; or
2. Congenital disease or anomaly which has resulted in a functional defect as determined by your **physician**.

In the case of mastectomy, surgery to reconstruct the breast on which the mastectomy was performed and surgery and reconstruction of the other breast to produce a symmetrical appearance shall be considered **reconstructive**.

Rehabilitative. Physical, occupational and speech therapy services are considered rehabilitative when they are provided to restore physical function or speech that has been impaired due to illness or injury.

Restorative. Surgery to rebuild or correct a physical defect that has a direct adverse effect on the physical health of a body part, and for which the restoration or correction is **medically necessary**.

Retail health clinic. Professional evaluation and medical management services provided to patients in a health care clinic located in a setting such as a retail store, grocery store or pharmacy. Services include treatment of common illnesses and certain preventive health care services.

Service area. The geographic area where this health insurance plan accepts members.

Skilled care. A type of health care given when you need skilled nursing or rehabilitation staff to manage, observe and evaluate your care. Nursing, physical therapy and occupational therapy are considered skilled care. In addition to providing direct care, these professionals manage, observe and evaluate your care. Any service that could be safely done by a non-medical person (or by yourself) without the supervision of a nurse is not considered skilled care.

Skilled nursing facility. A licensed bed or facility (including an extended care facility, **hospital** swing-bed and transitional care unit) that provides skilled nursing care, skilled transitional care or other related health services including rehabilitative services.

Step Therapy. Process that involves trying an alternative covered drug first before moving to another covered drug for treatment of the same medical condition.

Subscriber. The person to whom this Policy is issued.

Telemedicine. Telemedicine is the delivery of health care services or consultations while the patient is at an originating site and the licensed health care provider is at a distant site. An originating site includes a health care facility at which a patient is located at the time the services are provided by means of telemedicine. Distant site means a site at which a licensed health care provider is located while providing health care services or consultations by means of telemedicine.

A communication between a licensed health care provider and a patient that consists solely of an e-mail or facsimile transmission does not constitute telemedicine consultations or services.

Treatment for autism spectrum disorders or a developmental or physical disability. Care prescribed or ordered for an individual diagnosed with an autism spectrum disorder by a licensed physician or licensed psychologist, or for an individual diagnosed with a developmental or physical disability by a licensed physician or licensed psychologist, including equipment medically necessary for such care, pursuant to the powers granted under such licensed physician's or licensed psychologist's license, including, but not limited to:

1. Psychiatric care;
2. Psychological care;
3. Habilitative or rehabilitative care, including applied behavior analysis therapy for those diagnosed with autism spectrum disorder;
4. Therapeutic care;
5. Pharmacy care.

Urgent care center. A health care facility distinguishable from an affiliated clinic or hospital whose primary purpose is to offer and provide immediate, short-term medical care for minor, immediate medical conditions on a regular or routine basis.

Virtual care. Professional evaluation and medical management services provided to patients, in locations such as their home or office, through e-mail, telephone or webcam. Virtual care is used to address non-urgent medical symptoms for patients describing new or ongoing symptoms to which providers respond with substantive medical advice. Virtual care does not include telephone calls for reporting normal lab or test results or solely calling in a prescription to a pharmacy.
